which combine to build a powerful range of abilities associated with persuasive and presentational speech dialogue and debate as well as developing the children's command use and articulation of English. Each level consists of twelve starter lessons suitable for class based group work with sections preparing pupils for a variety of class competitions including public speaking poetry reading and debating. The activities link naturally with other areas of the curriculum and topics already being studied can easily be incorporated. In a parallel controlled research project highly significant gains in a nationally standardised test of non verbal reasoning were made over a seven month period by children who followed the activities for one lesson a week compared to those who did not. These were well in excess of what would be expected for their increased age. Particularly high gains were made by children of lesser ability and those for whom English was an additional language. The improvements recorded were later confirmed by the schools own National Curriculum assessments of progress against targets where on average the project children exceeded substantially the end of year forecasts made by their teachers.
