way in which Google differentiates the regular Pixel 8 from the Pixel 8 Pro is by including a temperature sensor in the version of the Pixel 8 Pro that is more expensive. This is a feature that is being offered for the very first time. There has also been an improvement made to the Call Screen feature which enables the Google Assistant to answer calls and filter out spam and other unwanted messages. The Assistant's voice intonation has been improved to make it seem more genuine and its capacity to absorb contextual information when it is on the phone has been enlarged. However, one of the most notable additions is the introduction of a picture editing tool called Best Take. This tool allows users to alter the facial expression of an individual in a group shot. This manual makes it easier for beginners and seniors to understand the Google Pixel 8 and 8 Pro. What you will see in the book:
