Hans Ulrich Vogel, Ulrich Theobald

Version Originale A2 :

The Social Action-Oriented Approach in Language Teaching Ahmet Acar, Christian Puren, 2024-09-24 The action oriented approach renamed as the social action oriented approach in this book was first introduced by the Council of Europe CoE in its official document The Common European Framework of Reference for Languages CEFR 2001 This book aims to provide a detailed explanation of this approach in all its dimensions its origins how it has developed as a new methodology within its new didactic configuration how to implement it in language textbooks and the classroom as well as the issue of designing social action oriented curricula and programs We believe this book will be a useful resource for curriculum developers language textbook writers researchers in the language teaching field language teacher trainees language teachers K 12 and university students

Marco Polo Research: Past, Present, Future Hans Ulrich Vogel, Ulrich Theobald, 2024-06-26

French through Corpora Virginie André, Christophe Benzitoun, Henry Tyne, 2014-06-02 This book offers a series of studies that come together in their concern for furthering an understanding of the French language of its uses its forms its variation and its acquisition Other than contributing to a general understanding of French this book also addresses the use of corpora for the study of language and the links between tools methods analyses and applications What data are used and how What are the underlying theoretical and or methodological considerations How have these changed our way of formulating linguistic descriptions What are the implications for descriptive accounts of French today What are the applications of corpus studies These questions and many more are addressed here in a series of scholarly contributions grouped into four broad areas diachrony syntax sociolinguistics and the learning and teaching of French The book provides an up to date and challenging account of French for researchers in French linguistics It will also be suitable for use on post graduate and some undergraduate courses providing useful information not only for students and teachers of French but also for language and linguistics students in general Many of the issues addressed are not specific to the French language and can be accounted for within a more general area of reflection within linguistics on changing relations between data theory and methods
