Pseudology Marcel Danesi,2024-09-11 In an age where fake news conspiracy theories and outright lies by political and cultural leaders are commonplace we may be becoming accustomed to lying or worse even immune to it Pseudology unravels the reasons for this by describing a science of lying that looks at various aspects of this trait from how it affects the brain to how it distorts perception Interest in lying goes back to antiquity and writing and debate has only increased in the present day but what is missing is a treatment that synthesizes the work from linguists political scientists anthropologists psychologists neuroscientists and sociologists tying them to the philosophical and literary views of lying throughout history Such a treatment can be called pseudology an interdisciplinary science for classifying collating and assessing ideas about lying This book is a comprehensive treatment of pseudology emphasising the importance of studying lying in our current climate Pseudology addresses questions such as What is a lie Why do we lie Why are we so susceptible to lying How does lying activate false beliefs and generate hatred of others How has lying shaped the course of history at least to some extent How has lying been adopted as a basic thematic element in literature and the arts Synthesising research from a broad range of disciplines and from the perspective of a leading cognitive linguist this text weaves ideas and theories about lying cohesively into an overall interdisciplinary science This landmark book is vital for students and scholars of language as well as anyone interested in politics sociology or psychology

The Truth About Reality Anti Christ,2008-08-15 This book is for you Anti Christ introduces you to yourself your government and to your god People from all walks of life and religion wonder about the validity of religion Are physical creatures eternal beings cast in a prison of flesh or did life accidentally spring forth from the absurd and incoherent twists and turns of evolution The several kinds of reality this book introduces fill the voids of understanding about reality with real knowledge The book is not about religion spirituality occult or anything concretely physical It encompasses all the deceitful control schemes laid on you like obedient dogs in their traces You cannot afford to stay ignorant for your continued existence depends on knowing what and

who you are physically and spiritually The mysteries of life are caused by your belief systems To believe means that you do not know Belief is the portal to hell the permanent state of living death knowledge is the portal to reality and eternal life Science and religion cannot give the insight this book brings Whether you believe the material is for you or not you cannot afford to remain ignorant for the route back to true reality is made clear Ignorance always portrays itself as brilliance The world is full of brilliant pretenders My brother Anti Christ leads you from example to example to understand the hoax on which physical reality is based The more real life seems the more you are betrayed and trapped The greatest mystery in the mind is the mystery of yourself Vaguely you all believe to be strangers guilty of something not understood Anti Christ gives you the better outlook on life than any ideology ism or cult you now subscribe to Through believing clever deceits mankind never saw physical awareness for what it is What humanity endlessly searches for lies revealed in the pages of this book It overrules all human and so called godly knowledge I could not have said it better Make it yours Jesus Christ **Seeking Truth in a Country of Lies** Edward Curtin, 2020-10-01 Seeking Truth in a Country of Lies is a dazzling journey into the heart of many issues political philosophical and personal that should concern us all Ed Curtin has the touch of the poet and the eye of an eagle ROBERT F KENNEDY JR A powerful expos of the CIA and our secret state Curtin is a passionate long time reform advocate his stories will rouse your heart OLIVER STONE filmmaker writer and director Seeking Truth in A Country of Lies is a collection of lyrical and critical essays offering keen insight into a very wide range of topics from probing analyses related to work the digital revolution propaganda the attacks of September 11 2001 the CIA government assassinations and wars to spellbinding reflections on poetry nature time and even silence Following in the path of such earlier celebrated essayists as Thoreau and John Berger Curtin s critique is at once political social cultural and deeply personal Constructed over a broad swath of time these essays address some of the most significant events in world history shining shafts of brilliant light on abhorrent matters long unspeakable Reading Curtin is akin to taking a walk in the woods with a good friend who gradually unrolls a stunning life changing revelation where having started out with a particular destination in mind one is then lured ever onwards into diverging paths another after another until as the compass finally turns one gently back toward home that sanctuary no longer looks the same A restless wonderment has been aroused dots are connected and a comprehensive picture emerges Here s but a taste The morning star welcomed me The sun rose majestically And across my window three early flies jitterbug in the first light The whole earth is conspiring to explode with life and seeking our assent Most suicides die of natural causes slowly and in silence Rub Lucifer the Prince of Darkness the right way and the CIA emerges into the light and his acerbic twist updating Robert Frost to contemporary context Two roads diverged in a yellow wood and I took the one to the mall The power of Curtin s essays lies in their capacity to evoke in the reader the exhilaration and passion for truth that the writer felt when writing them that the writer hoped would be carried into the world as rebellion against propaganda war and injustice Between Truth and Falsity: Liberal Education and the Arts of

Discernment Karim Dharamsi, David Ohreen, 2021-04-06 It seems we are awash in information From the moment we wake until we turn over our phones at night we are bombarded with images and messages news and information from a confounding number of sources But as the amount of information available to us increases ever more rapidly its quality and reliability seem less credible Russian troll bots 4chan Breitbart and Rebel Media challenge our credulity but they do so by mimicking aesthetic registers consumers expect of traditional media outlets Moreover traditional news sources both privately owned and public broadcasters already weakened by eroding revenue cuts to budgets and shifting demographics are under sustained attack from those who wish to damage their ability to hold powerful people to account Instead of a multi perspectival approach which seeks to report to the public the many ways to address a particular issue taking the reporter s role as neutral with regard to outcome fake or ideologically driven news sources compete for audience attention and faithfulness often using emotion to rally people toward a certain political cause or issue Academics meanwhile have their work attacked and undermined by people or groups seeking to advance political or economic interests They are told they too are political actors one more voice in a messy public arena instead of a font of reliable information and knowledge While academics continue to believe that their work at least in part enhances our understanding of the world and informs debate how do we know that their conclusions are indeed more reliable than their critics in the post truth era Between Truth and Falsity Liberal Education and the Arts of Discernment will aid academics and students seeking to better grasp the value of liberal education within this post truth era It seeks to advance pedagogical ideas in order to fight factual erosion and reinforce intellectual capacities that are able to critically assess the chaos of information enveloping all segments of society This volume will therefore be of particular interest to academics and university educators working in higher education graduate students theorizing the nature of media and the role of higher education undergraduates studying liberal education and the nature of the university and those thinking about liberal education

In Truth Matthew Fraser, 2020-03-27 From ancient Rome to the current Internet age this sweeping history of ideas explores how different epochs wrestled with the issue of truth and lies From the ancient Greeks and Romans to the modern era how have people determined what is true How have those with power and influence sought to control the narrative Are we living in a post truth era or is that notion simply the latest attempt to control the narrative The relationship between truth and power is the key theme Moving through major historical periods the author focuses on notable people and events from well known leaders like Julius Caesar and Adolf Hitler to lesser known individuals like Procopius and Savonarola He notes distinct parallels in history to current events Julius Caesar s publication of his Gallic Wars and Civil Wars was an early exercise in political spin not unlike what we see today During the English Civil War and the Enlightenment pamphleteering coupled with the new power of the printing press challenged the status quo as online and social media does in our time And fake news was already being used by German chancellor Otto von Bismarck in nineteenth century Europe and by the yellow journalism of American newspaper magnates

William Randolph Hearst and Joseph Pulitzer near the turn of the twentieth century The author concludes optimistically noting that we are debating and discussing truth more fiercely today than in any previous era The determination to arrive at the truth despite the manipulations of the powerful bodes well for the future of democracy

Ghost Front Charles Whiting,2002-04-18 While much has been written about the Battle of the Bulge Hitler's gigantic counteroffensive in the Ardennes Forest the question of exactly how Germany was able to secretly mass its strategic reserves opposite the U.S. front remains as shrouded in mystery today as it was at the time In December 1944 the snow covered Ardennes was so quiet it was termed by Allied planners the Ghost Front The U.S. placed its greenest units among the wooded hills along with combat shattered units But beneath trees just miles

away the Germans were stealthily massing two full Panzer armies and 300 000 assault troops Week after week Hitler poured the cream of the Wehrmacht into the quiet sector for a surprise attack designed to shatter the American front And while the Germans were eventually defeated in the Bulge the preparations for the attack marked a victory for German stealth deception and organization Charles Whiting one of the best selling historians of the war examines how the Allies could have anticipated the attack had they not been lulled into a false sense of security He also delves into the controversy over whether George Patton had received advance word of the offensive but failed to warn the frontline divisions This question and many others are at last answered in *Ghost Front*

Liberty, Equality, and Humbug David Dwan, 2018-10-17 George Orwell is watching you and you're watching him Britain pays its respects in the form of the Orwell Prize the Orwell Lecture and more recently Orwell Day A statue of Orwell now stands outside Broadcasting House in London and he continues to tower over broadsheet journalism His ghost is repeatedly summoned in the houses of Parliament and in schools across Britain In Europe and the US citizens confront the perennial question What would Orwell say Orwell is part of the political vocabulary of our times yet partly due to this popularity what he stands for remains opaque His writing confirms deep and widely shared intuitions about political justice but much of its enduring fascination derives from the fact that these intuitions don't quite add up David Dwan accounts for these inconsistencies by exploring the broader moral conflict at the centre of Orwell's work and the troubled idealism it yields Examining the whole sweep of Orwell's writings this book shows how literature can be a rich source of political wisdom

The Black Art Lee Richards, 2010 As well as the open propaganda of the British Government produced during the Second World War like the foreign language radio broadcasts of the BBC and the aerial propaganda leaflets dropped by the RAF over Occupied Europe a secret underground propaganda battle was also fought The Black Art documents this history of Britain's clandestine psychological warfare conducted against the Nazis Third Reich This black propaganda was the work of several secret intelligence organisations including the Political Warfare Executive and Special Operations Executive Using previously undiscovered primary source material The Black Art charts the progress of and catalogues the range of propaganda leaflets covertly distributed across Occupied Europe and beyond to subvert the morale of German soldiers and civilians The propaganda included such ruses as malingering instructions to fake the symptoms of illness tips for desertion to neutral countries parody postage stamps advice on sabotaging a U boat counterfeit ration coupons identity documents and newspapers plus numerous other falsely attributed leaflets and stickers Over 350 illustrations are included

Evaluation in the Post-Truth World Mita Marra, Karol Olejniczak, Arne Paulson, 2024-04-16 Evaluation in the Post Truth World explores the relationship between the nature of evaluative knowledge the increasing demand in decision making for evaluation and other forms of research evidence and the post truth phenomena of antiscience sentiments combined with illiberal tendencies of the present day Rather than offer a checklist on how to deal with post truth the experts found herein wish to raise awareness and reflection throughout policy circles on the factors that influence our assessment and policy related work in such a challenging environment Journeying alongside the editor and contributors readers benefit from three guiding questions to help identify specific challenges but tools to deal with such challenges How are policy problems conceptualized in the current political climate What is the relationship between expertise and decision making in today's political circumstances How complex has evaluation become as a social practice Evaluation in the Post Truth World will benefit evaluation practitioners at the program and project levels as well as policy analysts and scholars interested in applications of evaluation in the public policy domain Chapters 6 and 11 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Journalism and Truth in an Age of Social Media James E. Katz, Kate K. Mays, 2019-07-09 This volume gathers leading scholars in the fields of journalism and communication studies philosophy and the social sciences to examine critical questions of how we should understand journalism's changing landscape as it relates to fundamental questions about the role of truth and information in society Identifying and communicating truth is an age old concern greatly exacerbated and amplified by the onslaught of social media Along with confronting the fake news phenomenon chapter authors address the age old issue of truth and credibility in

journalism as it operates in politics and how technology may be complicating that relationship The book is designed as a supplemental text for journalism and related courses a worthwhile read for scholars in the field and an insightful guide for practicing journalists

Post-Truth Geographies Barney Warf, 2023-09-05 This book explores the geographical dimensions and implications of the post truth era Opening with a defense of the Enlightenment and the continued significance of science objectivity and truth it then provides three key perspectives on the concept The first is a philosophical analysis of post truth Social theory in various forms has sutured knowledge and power in the process relativizing the nature of truth This process reaches its apogee under post modernism which questions the very nature of truth itself The second is the examination of the historical origins and development of the post truth world While post truth has a history that can be traced back to the 18th and 19th centuries more recently it has growth prolifically through the use of social media The book examines post truth as it appears in the yellow journalism of the Hearst newspapers Holocaust denial and contemporary attacks on science itself e g the anti vaccine movement denial of evolution Post truth becomes a central issue in Western politics following Brexit and the election of Donald Trump who uses it frequently to advance a reactionary political agenda Russian hackers weaponize it to interfere in the politics of Europe and the U S Fox News and other right wing outlets also play a central role One result is the proliferation of unfounded conspiracy theories such as QAnon Today autocrats and dictators the world over use fake news to maintain their power Finally this book links the rise of a post truth society to the dynamics of contemporary economic geography Knowledge intensive capitalism has greatly elevated the significance of symbolic workers or the creative class Geographically contemporary capitalism has accentuated the agglomeration of producer services in large urban areas in which such workers labor Conversely rural areas and small towns have largely become repositories of the undereducated and thus are more susceptible to fake news

Societal Deception Geoffrey Lawrence, 2024-06-18 This book provides a comprehensive overview of societal deception how and why people are deceived and led to believe fake news Coherently blending critical political economy and sociology the author provocatively examines how corporations political parties the media think tanks and assorted influencers seek to manipulate public opinion to achieve their goals This book spans an array of contemporary topics and issues not normally tackled by a single writer the media genetic engineering fast food environmental pollution climate change economic inequality political manipulations sports and religion While critical in subject matter and replete with easily accessible and reliable sources this book is highly readable and entertaining for the general as well as academic audience interested in current global issues
