Youth and Popular Culture in Africa Paul Ugor, 2021 The edited collection focuses on the links between young people and African popular culture It explores popular culture produced and consumed by young people in contemporary Africa And by culture we mean all kinds of texts or representations visual oral written performative fictional social and virtual created by African youth mostly about their lives and their immediate societies and for themselves but also consumed by the larger public and shared locally and globally We proceed from the premise that cultural texts not only function as social facts as Karin Barber argues but that they double as commentaries upon and interpretations of social facts They are part of social reality but they also take up an attitude to social reality 2007 04 So the work focuses specifically on what African youth produce as popular culture under what conditions or contexts they produce such work how they produce those texts why they produce them the aesthetic dimensions of these texts as cultural artifacts and why these textual practices matter as social facts as interpretive acts and as cultural symbols of the general cultural activism of young people in a rapidly changing world a world where the global cultural economy is the prime terrain for the relentless struggles over the meanings that come to shape political economic and social systems

comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues *Rethinking Higher Education in Post-Apartheid South Africa* Emnet Tadesse Woldegiorgis, Logan Govender, Dennis Zami Atibuni, 2025-07-25 This book explores the opportunities and epistemological and structural challenges facing higher education in postcolonial South Africa and argues for a fundamental transformation to meet the needs of the 21st century Taking the concept of transformation as a unifying thread this book discusses the evolving trajectories of higher education in South Africa with particular emphasis on the decolonial initiatives that have emerged in the post Apartheid era During this time there have been persistent calls for South Africa to move beyond Eurocentric education programmes and curricula in favour of a system that reflects the continent's culture and identities of all South Africans The book argues that incremental reforms of existing structures are insufficient and that instead a deeper more fundamental shift in higher education structures values and systems is needed Overall the book calls for a comprehensive transformation to expand access for historically disadvantaged communities enhance quality and competitiveness address past injustices and improve the quality and capacity to act together for a more sustainable and just future Also exploring the digital transformations which have accelerated in the wake of the COVID 19 pandemic this book will be an essential read for researchers and policymakers working on higher education in South Africa Recent Development in Energy Conversion Systems Sunday Olayinka Oyedepo, Fidelis Ibiang Abam, Olusegun David Samuel, Oluseyi Olanrewaju Ajayi, Abimbola Patricia Popoola, Diana-Andra Borca-Tasciuc, 2024-03-15 In this industrial and technological age energy plays a principal role in sustainable development This is connected to issues regarding availability production processes utilization and environmental impact Due to the increased rate of population growth the energy demand in the entire world is getting to the level that it may not be sustained in the nearest future if drastic action is not taken to address the situation especially from research and development perspectives None of the millennium development goals MDGs can be completed without considerable improvements in the quality and quantity of energy services in developing countries according to the United Nations Development Programme UNDP Based on this fact UNDP is making efforts especially in developing countries to ensure that people have access to sustainable sources of clean reliable and affordable energy since every aspect of human development is highly impacted by this vital resource *The National Agricultural Directory 2009* ,2009 South Africa Survey ,2006 **African Drum** ,2005 *Perspectives on Educational Governance* S.
