Using Assessments to Teach for Understanding Judith Shulman, Andrea Kay Whittaker, Michele Lew, 2002
 A companion to Facilitator's Guide to Using Assessments to Teach for Understanding this casebook presents the challenges and dilemmas that teachers face with the contemporary climate of high stakes accountability. The cases provide an opportunity to collaboratively analyse and reflect on issues.

All that Matters Linda Rief, Maureen Barbieri, 1995
 All That Matters examines learning and evaluation and the need to bring the two together in more relevant ways. Rief and Barbieri invite us to consider how we might best develop our students' strengths, presenting a collection of truly useful and often novel approaches. The voices recorded in All That Matters are those of risk takers: teachers who seek greater insight into and respect for children; enthusiasts who incorporate the unexpected into their teaching; art, music, gardening, foreign languages and more. Above all, they are the voices of lifelong learners who share their passion with students and colleagues, parents and family. These teachers are willing to chance failure because they understand that learning is as essential to our survival as breathing. Learning is what keeps us alive. From them we learn ways to examine the potential of portfolios to reflect different kinds of intelligence; balance individual needs with those of the entire class; discover ways to enhance professional development within school walls; involve parents in meaningful, ongoing evaluation; recognize and honor students and teachers' passions in the classroom and beyond. Woven in among their classroom stories are interludes where teacher-writers reflect on what matters most in their lives. What makes a teacher write a poem honoring a town's courage in the face of bigotry? What makes another teacher reminisce about her mother's garden or a community's loyalty or a father's faith? Rief and Barbieri believe that teachers like these, who know what they really cherish, can help us all better define what we value for our students. More important, they help us achieve it.

Designing and Using Performance Tasks Tracey K. Shiel, 2016-09-14
 Stretch student thinking with performance based tasks. With the continual increase of high stakes assessments, also comes the surge of professional development on designing performance based tasks. Providing step by step insights, this book shows you how to incorporate performance tasks as a tool to teach, monitor and extend student learning. If you're ready to stretch your students' thinking, grab a copy of this how to guide to help you make instructional decisions based on student performance of learning tasks. Incorporate learning progressions as an integral part of planning performance tasks. Close the knowing-doing gap by focusing on considerations for successful implementation.
