Tshwane Nursing Training:

FET Colleges South Africa. Department of Education, 2007 **The A to Z of Careers in South Africa**, 2006 **Cases on Transnational Learning and Technologically Enabled Environments** Mukerji, Siran, Tripathi, Purnendu, 2010-03-31 This book offers case studies on divergent themes addressing the core perspective of technological adaptability and transnational learning Provided by publisher **Community Health Workers: Describing the Breadth of Interventions and Contexts Across the World** Mathieu Nacher, Nicolas Vignier, 2025-05-15 Social inequalities in health remain a challenging problem throughout the world Despite a variety of specific contexts vulnerable populations often present to care later with more advanced health problems and often greater fatality rates at younger ages To remediate this health services NGOs project personnel to liaise with the communities and serve as an intermediary between health professionals and patients from vulnerable populations The denominations may vary health mediation cultural mediation community health workers Agente de Sa de and sometimes entail different functions Hard evidence on the impact of these mediators is often lacking because of the differences in contexts specific health problems considered and what mediation entails in different countries In this Research Topic we encourage submissions of articles that describe a range of experiences for different contexts where mediation health mediation cultural mediation community health workers Agente de Sa de programmes are deployed for public health issues From this variety of experiences we hope this special issue will constitute a precious repository of experiences and contexts that could be transferable and scalable interventions for others **Lifestyle and Epidemiology** Kotsedi Daniel Monyeke, Han C.G. Kemper, 2021-10-06 Lifestyle and Epidemiology The Double Burden of Poverty and Cardiovascular Diseases in African Populations examines the profile of non communicable diseases NCDs in the rural South African population The burden of diseases in South Africa is characterized by a combination of poverty related diseases with emerging NCDs associated with urbanization industrialization and a Westernised lifestyle Chapters in this book examine the effects of poverty COVID 19 and other social factors on the prevalence of cardiovascular disease reproductive health and diabetes in rural South Africa *African Perspectives on Ethics for Healthcare Professionals* Nico Nortjé, Willem A. Hoffmann, Jo-Celene De Jongh, 2018-10-24 This book focuses on ethical issues faced by a variety of healthcare practitioners across the Anglophone African continent This important resource contains in depth discussions of the most salient current ethical issues by experts in various healthcare fields Each profession is described from both an African and a South African perspective and thus contributes to dialogue and critical thinking around African ethics and decision making In this way the book provides readers with an understanding of the ethical issues at hand in various professions including the practical implications of the ethical issues and how to address those effectively This is a beneficial resource for all those involved in the various healthcare professions addressed in this book including undergraduate students lecturers researchers and practitioners across the continent Simply put with the dynamic changes and challenges in healthcare across the globe and in

Africa this is an indispensable resource for healthcare practitioners **Sizonqoba! Outliving AIDS in Southern Africa**

Busani Ngcaweni, 2017-04-11 The aim of this book is to better understand the phenomenon of HIV in a country that has faced the fullest might of the disease and yet after first faltering has made more progress than any other country in the world in its response to HIV It aims to reflect the complexity of this narrative and the range of widely differing insights by featuring what is likely the largest number of contributors in a single publication on the subject in South Africa as well as a full spectrum of specialised areas ranging from high end science to personal reflections New Models for Technical and Vocational

Education and Training Makgato, Moses, Afeti, George, 2020-12-18 Technical and vocational education and training at technical schools are major contributing factors in combating poverty unemployment and inequality The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace As the Fourth Industrial Revolution continues to create more radical changes in the labor market experts are calling for a reform of education including vocational education and training and adult and professional education New Models for Technical and Vocational Education and Training is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students chances of employability and entrepreneurship in Industry 4.0 The book explores knowledge in respect to workforce preparation digital skills development teaching and learning of TVET flexibility and articulation of TVET to respond to work integrated learning and reskilling and upskilling to avoid skill mismatches It is ideal for TVET schools academicians curriculum designers managers training officers administrators vocational professionals researchers and students

Healthcare Access - New Threats, New Approaches Ayşe Emel Önal, 2023-11-02 Access to health care is the ability to receive health services for the prevention detection and treatment of disorders that affect health For health care to be accessible it must be affordable and able to protect and improve health There are myriad reasons that may make access to health services difficult or even impossible These include economic problems conflicts climate change internal and external migrations beliefs and so on This book examines many of these barriers to health care and proposes solutions for overcoming them *Working with indigenous knowledge* Fhumulani M. Mulaudzi, Rachel T. Lebeso, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeless and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu

Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities. The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally. This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning, teaching, evidence-based practice, and further research.
