**A Close Look At Close Reading** Diane Lapp, Barbara Moss, Maria Grant, Kelly Johnson, 2015-01-29 The Common Core State Standards have put close reading in the spotlight as never before While elementary school teachers are certainly willing to teach students to closely read both literary and informational text many are wondering what exactly this involves Is there a process to follow How is close reading different from guided reading or other common literacy practices How do you prepare students to have their ability to analyze complex texts measured by Common Core assessments Is it even possible for students in grades K 5 to read to learn when they re only just learning to read Literacy experts Diane Lapp Barbara Moss Maria Grant and Kelly Johnson answer these questions and more as they explain how to teach young learners to be close readers and how to make close reading a habit of practice in the elementary classroom Informed by the authors extensive field experience and enriched by dozens of real life scenarios and downloadable tools and templates this book explores Text complexity and how to determine if a particular text is a right fit for your learning purposes and your students The process and purpose of close reading in the

elementary grades with an emphasis on its role in developing the 21st century thinking speaking and writing skills essential for academic communication and required by the Common Core How to plan teach and manage close reading sessions across the academic disciplines including the kinds of questions to ask and the kinds of support to provide How to assess close reading and help all students regardless of linguistic cultural or academic background connect deeply with what they read and derive meaning from a complex text Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers and empowered and independent learners In this comprehensive resource you ll find everything you need to start their journey

**Conform** Glenn Beck,2014-05-06 Glenn Beck the New York Times bestselling author of The Great Reset considers the hot button issue of education in the US exposing the weaknesses of the Common Core school curriculum and examining why liberal solutions fail Public education is never mentioned in the constitution Why Because our founders knew that it was an issue for state and local governments not the federal one It s not a coincidence that the more the federal government has inserted itself into public education over the years the worse our kids have fared Washington dangles millions of dollars in front of states and then tells them what they have to do to get it It s backdoor nationalization of education and it s leading us to ruin In Conform Glenn Beck presents a well reasoned fact based analysis that proves it s not more money our schools need it s a complete refocusing of their priorities and a total restructuring of their relationship with the federal government In the process he dismantles many of the common myths and talking points that are often heard by those who want to protect the status quo Critics of the current system are just teacher bashers Teachers unions put kids first Homeschooled kids suffer both academically and socially local control is an excuse to protect mediocrity Common Core is rigorous and state led Critics of Common Core are just conspiracy theorists Elementary school teachers need tenure We can t reform schools until we eradicate poverty school choice takes money away from public schools Charter schools perform poorly relative to public schools There is no issue more important to America s future than education The fact that we ve yielded control over it to powerful unions and ideologically driven elitists is inexcusable We are failing ourselves our children and our country Conform gives parents the facts they need to take back the debate and help usher in a new era of education built around the commonsense principles of choice freedom and accountability
