An Evaluation of the Capacity of South African Schools to offer Multi-grade Teaching Dr Segwadi Joseph Kokela, Dr KS Malatji, 2023-08-24 Small schools due to a variety of reasons are compelled to opt for multi grade teaching in which learners of more than one grade are taught in one class Resultantly the purpose of this study was to evaluate the capacity of South African schools in the implementation of multi grade teaching The study followed a qualitative approach to evaluate the implementation of multi grade teaching A case study research design was followed with an interpretive paradigm to evaluate day to day offering of multi grade teaching The population in this study consisted of principals and teachers who were selected through purposive sampling Data were collected through focus group and face to face semi structured interviews as well as document analysis Kolb s experiential learning theory was used as a theoretical framework for this study to evaluate the offering of multi grade teaching in case study schools The thematic approach was used to analyse data To ensure issues of ethical consideration the researcher ensured that there is anonymity confidentiality informed consent voluntary participation participants privacy and safety The study found that schools in Sekhukhune South Education District could not offer multi grade teaching This was mainly based on the lack of central policies on multi grade teaching as well as inappropriate teacher development programmes Insufficient human and financial resources were also identified as key hindrances in the implementation of multi grade teaching Resultantly the study suggested that the serving teachers their SMTs and their Curriculum Advisors must be provided with in service training on multi grade teaching On the other hand teacher training universities should have a compulsory module on multi grade teaching The study also recommended the establishment of a DoBE unit that solely focuses on matters related to multi grade teaching The study further recommended that the DoBE should develop central policies on multi grade teaching

It was also recommended that the DoBE's Post Provision Model and the National Norms and Standards for School Funding must be revised to cater for the needs of multi grade schools. The study further proposed a new framework to engender collaboration amongst principals, parents and Curriculum Advisors in school based multi grade policy formulation, advocacy training as well as monitoring and support. Information and Communication Technologies in Tourism 2024 Katerina Berezina, Lyndon Nixon, Aarni Tuomi, 2024-05-03. For more than 30 years Information and Communication Technology (ICT) has been revolutionizing travel, tourism and hospitality and as we look to the next 30 years the change of pace does not seem to be diminishing. This open access book provides an extensive overview of the latest developments of ICTs in the tourism and hospitality industry. Featuring papers presented at the International Federation for IT and Travel emerging technologies in tourism education, virtual reality technologies for sustainability, health and wellbeing, big data and analytics among others. This is an open access book.

Urban Land, 2006. **Index Veterinarius**, 2007. **The New York Times Index**, 2005. **Commercial Directory**, 2002. **Free State : White and Yellow Pages**, 2000. *Northern Province White & Yellow Pages*, 2000. **A Participatory Action Research Approach to the Professional Development of Veteran Primary School Mathematics Teachers** Caroline Nelisiwe Mahlangu, 2020. Research has shown that South African mathematics performance is extremely poor compared to other countries that participated in the Trends in Mathematics and Science Study in 2015 and 2016 respectively. Most of the competing countries were developing and were disadvantaged by their socio-economic status compared to the more economically vibrant South Africa. However, South Africa came last in the mathematics and science standardised tests commonly referred to as the Annual National Assessment and National Benchmark Test. The poor performance of the country's 22 4 s learners in mathematics is exacerbated by the inability of veteran mathematics teachers to adopt technological teaching methods and innovations during teaching and learning. The Mathletics programme is a modern teaching tool that links every aspect of mathematics teaching and learning and gives individual learners the ability to successfully engage in mathematics learning activities. The learner gains mental mathematics skills to solve mathematical problems and is then able to apply the acquired mathematical skills to solve similar mathematical problems in any given

situation This study aimed to investigate and develop the professional status of veteran primary school mathematics teachers through participatory action research to improve their understanding of the application of Mathematics during teaching and learning The data for my study was collected via audiotape semi structured interviews and participant observations The participants were veteran mathematics primary school teachers between the ages of 40 and 59 from the Gauteng Department of Education Tshwane South District Circuit 2 The interviews and observations were conducted at times and venues preferred by the participants at their respective schools The main research finding of the study shows that the majority of the participating veteran primary school teachers are not fully prepared in terms of skills resources and methods to effectively respond to the recent technological teaching and learning transformations As a recommendation this study needs further research to benefit more schools and more teachers so that participatory action research PAR can be a method for continuing professional development CPD

How School Management Teams Support Mathematics Teachers in Public Secondary Schools in Gauteng Province Tebogo Mampane, 2015

This is likewise one of the factors by obtaining the soft documents of this **Tshwane South District Exams** by online.
