Tshwane University Application Form 2015:

TMS 2015 144th Annual Meeting and Exhibition The Minerals, Metals & Materials Society (TMS),2015-02-26 The TMS 2015 Annual Meeting Supplemental Proceedings is a collection of papers from the TMS 2015 Annual Meeting the unedited papers have not necessarily been reviewed by the symposium organizers and are presented as is The opinions and statements expressed within the papers are those of the individual authors only and no confirmations or endorsements are intended or implied **TMS 2015 144th Annual Meeting & Exhibition, Annual Meeting Supplemental Proceedings** The Minerals, Metals & Materials Society (TMS),2016-12-20 *ECRM2015-Proceedings of the 14th European Conference on Research Methods 2015* Dr Vincent Cassar,Dr Frank Bezzina,2015-06-01 Complete proceedings of the 14th European Conference on Research Methodology for Business and Management Studies Valletta Malta Published by Academic Conferences and Publishing International *University on the Border* Lis Lange,Vasu Reddy ,Siseko H. Kumalo,2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university Strategic Communication Management for Development and Social Change Tsietsi Mmutle,Tshepang Bright Molale,Olanrewaju Olugbenga Akinola,Olebogeng Selebi,2023-12-13 This book is the first of its kind within the African region to combine scholarly perspectives from the fields of Strategic Communication Management and Communication for Development and Social Change It draws insights from scholars across the African continent by unravelling the complementary nature of scholarship between the two fields through the lens of prevailing governance and sustainability challenges facing African countries today This edited volume covers issues that have adversely affected the achievement of goals related to humanitarian upliftment development and social change for all African nations Consequently citizen participation which lies at the heart of these challenges when considering the question of sustainable governance and policy development for social change in an African context is addressed To this end a reflection is also made on various case studies that exist where local citizens do not inform sustainable development programmes while the promotion of bottom up development and social change is largely replaced by top down instrumental action approaches and hemispheric communication instead of strategic communication Themes explored include Communication for social change bottom up development and social movements in the local government sphere Strategic communication in governance planning and

policy reforms The role of multi stakeholder partnerships in achieving development of objectives geared towards good governance in Africa Public participation protests and resistance from below Public sector health communications and development Media relations accountability and contested development narratives with the Fourth Estate Social media and eParticipation in government development programs

Informal Sector Innovations Mammo Muchie,Saradindu Bhaduri,Angathevar Baskaran,Fayaz Ahmad Sheikh,2017-10-02 It is well documented that the space of informal economic activity is rising across the globe This rise has been particularly significant in the least developed and developing countries especially after the onset of neo liberal policies and withdrawal of welfare state There has also been a shift in academic thinking on informal sector with attempts being made to understand the contribution of informal sector in generating employment and economic growth rather than focusing solely on exploitative labour conditions in these economic activities Indeed with the retreat of welfare state and the introduction of contract labour in the formal sector many issues related to occupational hazards and improper labour conditions do not remain unique to the informal sectors of the economy particularly in less developed countries This volume addresses a specific concern the issue of knowledge generation and innovative activities which lies at the core of sustained competitive advantage of these activities The chapters in this book

were originally published in the African Journal of Science Technology Innovation and Development

The Governance of Transitions - The Transitions of Governance Martijn van der Steen,Johan Burger,Werner Burger,2018-12-18 Why is societal transition not simply a matter of change management or normal policy design South Africa is living proof of the ability of a society to reinvent and reinstall itself With the advent of new societal challenges came the need for real societal innovation especially in sectors where it was never deemed necessary or possible before This book asks What type of governance is helpful for developing new societal institutions and systems that can overcome systemic crises in emerging economies and fragile communities What emerges is a compilation of chapters that introduce different parts of a solution which can be used in developing both a growing body of practices of governed societal transitions and the associated transition of governance The Governance of Transitions The Transitions of Governance in part aims to provide building blocks which government and society could use to develop strategies for creating sustainable outcomes It considers what kind of leadership organisation or methods for accountability enable new types of governance and what the most important barriers are

Deanship in the Global South Oliver J.J. Seale,2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary

academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

Recent Development in Energy

Conversion Systems Sunday Olayinka Oyedepo, Fidelis Ibiang Abam, Olusegun David Samuel, Oluseyi Olanrewaju Ajayi, Abimbola Patricia Popoola, Diana-Andra Borca-Tasciuc, 2024-03-15 In this industrial and technological age energy plays a principal role in sustainable development This is connected to issues regarding availability production processes utilization and environmental impact Due to the increased rate of population growth the energy demand in the entire world is getting to the level that it may not be sustained in the nearest future if drastic action is not taken to address the situation especially from research and development perspectives None of the millennium development goals MDGs can be completed without considerable improvements in the quality and quantity of energy services in developing countries according to the United Nations Development Programme UNDP Based on this fact UNDP is making efforts especially in developing countries to ensure that people have access to sustainable sources of clean reliable and affordable energy since every aspect of human development is highly impacted by this vital resource
