Tsip Certification Guide:

Partnerships for Leadership Preparation and Development Frances K. Kochan, Ellen H. Reames, Dana M. Griggs, 2021-01-01 There is a large body of research that supports the reality that school leaders make a significant contribution to the success of schools and the students in them. Additionally, there is strong agreement among and between researchers and state and national educational leadership associations that educational leadership preparation and development should be created and implemented within university school partnerships. Although institutions engage in forming university school partnerships for varied reasons, research on the extent to which these partnerships exist, their organizational structures and processes, their implementation and effectiveness, and elements that foster and hinder their success is limited. Perhaps more importantly, there is not a widely accepted research-based model of such partnerships that practitioners and researchers can use to guide the development and assessment of these partnership endeavors and upon which they can conduct effective research. This book seeks to fill these gaps. It presents the purposes, processes, practices, and outcomes of eleven university school partnerships focused on school leadership preparation and/or development. Each chapter presents an overview of the partnership elements that fostered and hindered partnership success and lessons learned. The book concludes with a chapter that summarizes findings across all chapters and presents a school-university partnership model that can be used by those interested in forming, improving, or researching similar partnership endeavors. There are no similar resources available in the field. Thus, this book makes an important contribution to the literature and to the world of practice and research. *Praise for Partnerships for Leadership Preparation and Development* Facilitators, Barriers, and Models for Change Kochan, Reames, and Griggs bring together the latest research and eleven case examples of university practice partnerships for school leadership preparation and development. The volume provides keen insights into practices that can make or break an effective partnership, making it a valuable resource for those seeking to develop new partnerships to enhance existing ones and to engage in research on this topic. For those in the throes of redesign or leadership program improvement, it is an essential read. Michelle D. Young, Professor and Dean, Loyola Marymount University UCEA Executive Director Emeritus *Partnerships for Leadership Preparation and Development* is destined to become an indispensable go-to resource for educators who are contemplating or already engaged in school-university partnerships. Rich details are provided about a variety of partnerships operating for aspiring and practicing schools administrators, with special attention to preparing and developing underserved populations for educational leadership roles. The book not only captures the realities of these collaborative efforts but also provides a roadmap for anticipating the important relational, organizational, and operational processes required for partnership success.
