How to Remodel a Man W. Bruce Cameron, 2005-09-29 Current research suggests there is a large group of people who have been trying to change men For want of a better term let s call these people women Their urge is understandable We ve all had to take measures to accommodate men because they are involved in nearly every aspect of modern life except maybe housework and they like to run things like corporate meetings and the planet The only other alternative has been to try to avoid men altogether which is pretty hard to do if you are interested in stuff like reproduction or having your oil changed That s why How to Remodel a Man is so indispensable it is a clear step by step guide for anyone who wants to alter the character and behavior of a man written by an actual man Author W Bruce Cameron provides startling insight into male pattern thinking explaining why men can open a refrigerator and not see the mayonnaise or how it is that they can throw dirty clothes at the hamper or in front of the hamper or even on top of the hamper and yet not seem capable of getting any of it in the hamper Normally changing a man has certain obstacles including but not limited to the fact that it is impossible But Cameron is able to overcome this hindrance because he himself has been remodeled In a move so bold it may be shocking to
