**Productive failure** Alpesh Kantilal Patel, 2017-07-21 This title sets out to write new transnational South Asian art histories to make visible histories of artworks that remain marginalised within the discipline of art history However this is done through a deliberate productive failure specifically by not upholding the strictly genealogical approach that is regularly assumed for South Asian art histories For instance one chapter explores the abstract work of Cy Twombly and Natvar Bhavsar The author examines whiteness the invisible ground upon which racialized art histories often pivot as a fraught yet productive site for writing art history This book also provides original commentary on how queer theory can deconstruct and provide new approaches for writing art history Overall this title provides methods for generating art history that acknowledge the complex web of factors within which art history is produced and the different forms of knowledge production we might count

as art history      **Resilience in the Post-Welfare Inner City** Geoffrey DeVerteuil, 2016-08-17 Resilience has become one of the first fully fledged academic and political buzzwords of the 21st century Within this context Geoffrey DeVerteuil proposes a more critically engaged and conceptually robust version applying it to the conspicuous but now residual clusters of inner city voluntary sector organisations deemed service hubs The process of resilience is compared across ten service hubs in three complex but different global inner city regions London Los Angeles and Sydney in response to the threat of gentrification induced displacement DeVerteuil shows that resilience can be about holding on to previous gains but also about holding out for transformation The book is the first to move beyond theoretical works on resilience and offers a combined conceptual and empirical approach that will interest urban geographers social planners and researchers in the voluntary sector      *Changing the Subject* Srila Roy, 2022-08-29 In *Changing the Subject* Srila Roy maps the rapidly transforming terrain of gender and sexual politics in India under the conditions of global neoliberalism The consequences of India's liberalization were paradoxical the influx of global funds for social development and NGOs signaled the co-optation and depoliticization of struggles for women's rights even as they amplified the visibility and vitalization of queer activism Roy reveals the specificity of activist and NGO work around issues of gender and sexuality through a decade long ethnography of two West Bengal organizations one working on lesbian bisexual and transgender issues and the other on rural women's empowerment Tracing changes in feminist governmentality that were entangled in transnational neoliberalism Roy shows how historical and highly local feminist currents shaped contemporary queer and nonqueer neoliberal feminisms The interplay between historic techniques of activist governance and queer feminist governmentality's focus on changing the self offers a new way of knowing feminism both as always already co-opted and as a transformative force in the world      **LGBTQ Americans in the U.S. Political System** Jason Pierceson, 2019-11-11 This comprehensive sourcebook covers the evolution of LGBTQ engagement in American politics from the emergence of gay rights as a political issue in the early 1970s to the present day when LGBTQ issues occupy a prominent place in politics This work provides a broad and authoritative survey of the ways in which gay Americans are influencing the tenor and trajectory of U.S. politics at the local state and national levels An encyclopedic section offers thorough coverage of all of the individuals organizations cultural forces political issues and legal decisions that have combined to elevate the role of LGBTQ people at the ballot box on the campaign trail in Washington and in mayors offices city councils and school boards across the country Complementing reference entries are in depth essays on the rising prominence of gay Americans as voters candidates public officials lawmakers and opinion leaders providing further context for understanding their impact on modern U.S. political processes and institutions from the perspective of liberals and conservatives alike Finally the set includes a collection of important primary source documents that illuminate landmark events examine gay policy priorities and preferences and showcase the beliefs and experiences of prominent LGBTQ Americans in the world of politics      *The 2nd City of London Regiment (Royal Fusiliers) in the Great War,*
