RETAIN User Manual United States. Department of the Army, 1985 **Africa's Slaves Today** Jonathan Derrick, 2022-09-21 Africa's Slaves Today first published in 1975 examines the question of the persistence of slavery in modern Africa. It concludes that slavery is by no means dead in certain regions but that at the same time clear cut definitions of slave and free are often impossible to establish. In the Sahara particularly centuries of tradition involving slavery or semi-slavery have ensured a persistence of the status quo in all but name. Recent instances of Africans sold into slavery in Arabia are discussed together with a detailed survey of slavery throughout North Africa and Ethiopia. At what stage forced labour becomes slavery is a difficult question raised by the discussion of the white South. The whole subject of slavery is put into perspective by contrasting examinations of the historical situation throughout the book. **Routledge Handbook on the Modern Maghrib** George Joffé, 2023-11-20 This comprehensive Routledge Handbook on the Modern Maghrib introduces and analyses the region in its full complexity focussing on the countries of Morocco, Tunisia, Algeria and Libya as well as the regions of the northern and western Sahara. In addition to country studies that provide historical and geopolitical background, a series of thematic explorations engage with a range of social, linguistic, cultural and economic aspects, providing a rich mosaic of current scholarship on the region. Addressing important debates such as the volatile international relations among constituent states, the role of women in society and the environmental impact of climate change, the book considers natural resources, music, media and language and revisits the history of borders and social tribal structures. What emerges is not only a variegated picture of the Maghrib as a complex and rapidly changing region but one marked by stark contrasts and divergences among its constituent states based on their Ottoman and colonial experiences, their relationships with their Saharan and Mediterranean neighbours and their own political trajectories. This Handbook fills an important gap in knowledge on a region increasingly significant in European and American affairs and will appeal to anyone interested in the history, economies and societies of North Africa. *Automated Data Systems Manual, Standard Installation/Division Personnel System - United States Army Reserve*, 1985 [The Geology of the Arab World--An Overview](#) Abderrahmane Bendaoud, Zakaria Hamimi, Mohamed Hamoudi, Safouane Djemai, Basem Zoheir, 2018-09-21 This book is the result of the work of the first international congress of the ArabGU Arabian Geosciences Union which took place in Algiers, Algeria in February 2016. It presents research articles and review papers on geology of the North Africa and Arabian Middle East. It provides information to the public on various fields of earth sciences and encourages further research in this field in order to attract an international audience. **Arabs and Berbers** Ernest Gellner, Charles Antoine Micaud, 1972 *West Africa*, 1995-04

Neighbors, Strangers, Witches, and

Culture-Heroes Susan Rasmussen, 2013-09-24 This book examines alleged superhuman powers predominantly associated with smith artisans in five African societies. It discusses their ritual and social roles, mythic histories, symbols surrounding their art, and changing relationships between these specialists and their patrons. Needed but also feared, these smith artisans work in traditionally hereditary occupations and in stratified but negotiable relationships with their rural patron families. Many of them now also work for new customers in an expanding market economy which is still characterized by personal face-to-face interactions. Rasmussen maintains that a framework integrating anthropological theories of witchcraft, alterity, symbolism, and power is fundamental to understanding local accusations and tensions in these relationships. She also argues that it is critical to deconstruct and disentangle guilt, blame, and envy concepts that are often conflated in anthropology at the expense of falsely accused witch figures. The first portion of this book is an ethnographic analysis of smith artisans in Tuareg society and draws on primary source data from this author's long-term social-cultural anthropological field research in Tuareg Kel Tamajaq communities of northern Niger and Mali. The latter portion of the book is a cross-cultural comparison and it re-analyzes the Tuareg case drawing on secondary data on ritual powers and smith artisans in four other African societies: the Amhara of Ethiopia, the Bidan Moors of Mauritania, the Kapsiki of Cameroon, and the Mande of southern Mali. In the concluding analysis, there is discussion of similarities and differences between these cases, the social consequences of ritual knowledge and power in each community, and their wider implications for anthropology of religion, human rights, and African studies.

Twentieth-Century Organ Music Christopher S. Anderson, 2013-06-17 This volume explores twentieth-century organ music through in-depth studies of the principal centers of composition, the most significant composers, and their works, and the evolving role of the instrument and its music. The twentieth century was a time of unprecedented change for organ music, not only in its composition and performance but also in the standards of instrument design and building. Organ music was anything but immune to the complex musical, intellectual, and socio-political climate of the time. *Twentieth-Century Organ Music* examines the organ's repertory from the entire period, contextualizing it against the background of important social and cultural trends. In a collection of twelve essays, experienced scholars survey the dominant geographic centers of organ music: France, the Netherlands, Scandinavia, the United States, and German-speaking countries, and investigate the composers who made important contributions to the repertory: Reger in Germany, Messiaen in France, Ligeti in Eastern and Central Europe, Howells in Great Britain. *Twentieth-Century Organ Music* provides a fresh vantage point from which to view one of the twentieth century's most diverse and engaging musical spheres.
