WSTS detects if you have not logged in before and provides an option to install the Upload Wizard. We strongly recommend that you install the Wizard if possible. Using the Wizard provides integrity checks of transmitted files, supports uploading multiple files at once and allows you to zip files for uploading on the fly.

The screenshot displays the WSTS user interface. At the top, it shows 'Signed onto Westat as 9990 (9990)' and a link for 'Account Options - Sign Out'. A navigation sidebar on the left includes links for Home, Folders, Logs, a search bar for 'Find File/Folder:', and a 'Go To Folder:' dropdown menu. Below the sidebar, there are links for 'Need Help?' such as 'Online Manual' and 'Tech Support'. The main content area features a 'Welcome to Westat! Please watch this area for important messages.' notification. Below this, the user's account 'Account Options (9990)' is listed. A prominent 'Wizard Installation' section contains a message: 'I noticed (due to missing cookies) that you don't have the ActiveX Wizard installed. Would you like to...'. This section offers four options: 'Try to install the ActiveX Wizard', 'Disable the Wizard', 'Disable the Wizard (this session only)', and 'Try to install the Java Wizard'.

We understand that you may not be able to install ActiveX components on your PC due to security restrictions. Should this be the case, click on Disable the Wizard and refer to the Troubleshooting section of this manual for an alternate way to upload your files. If you are able to install the component, follow the steps below.

First, click the "Try to install the ActiveX Wizard" link as seen in the screenshot above.
