Turn Of The Century:

The Turn of the Century Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective **Bela Bartok and**

Turn-of-the-Century Budapest Judit Frigyesi, 1998-03-23 Bartok's music is greatly prized by concertgoers yet we know little about the intellectual milieu that gave rise to his artistry Bartok is often seen as a lonely genius emerging from a gray background of an underdeveloped country Now Judit Frigyesi offers a broader perspective on Bartok's art by grounding it in the social and cultural life of turn of the century Hungary and the intense creativity of its modernist movement Bartok spent most of his life in Budapest an exceptional man living in a remarkable milieu Frigyesi argues that Hungarian modernism in general and Bartok's aesthetic in particular should be understood in terms of a collective search for wholeness in life and art and for a definition of identity in a rapidly changing world Is it still possible Bartok's generation of artists asked to create coherent art in a world that is no longer whole Bartok and others were preoccupied with this question and developed their aesthetics in response to it In a discussion of Bartok and of Endre Ady the most influential Hungarian poet of the time Frigyesi demonstrates how different branches of art and different personalities responded to the same set of problems creating oeuvres that appear as reflections of one another She also examines Bartok's Bluebeard's Castle exploring philosophical and poetic ideas of Hungarian modernism and linking Bartok's stylistic innovations to these concepts Turn of the Century Kurt Andersen, 2011-03-09 As big and exciting as the next century this is a novel of real life at our giddy feverish topsy turvy edge of the millennium Turn of the Century is a good old fashioned novel about the day after tomorrow an uproarious exquisitely observed panorama of our world as the twentieth century morphs into the twenty first transforming family marriage and friendship and propelled by the supercharged global businesses and new technologies that make everyone's lives shake and spin a little faster As the year 2000 progresses George Mactier and Lizzie Zimbalist ten years married are caught up in the whirl of their centrifugally accelerating lives George is a TV producer for the upstart network MBC launching a truly and weirdly groundbreaking new show that blurs the line between fact and fiction Lizzie is a software entrepreneur dealing with the breakneck pleasures and pains of running her own company in an industry where the rules are rewritten daily Rocketing between Los Angeles and Seattle with occasional stopovers at home in Manhattan for tag team parenting of their three children George and Lizzie are the kind of businesspeople who growing up in the sixties and seventies never dreamed they would end up in business They're too busy to spend the money that's rolling in and too smart

not to feel ambivalent about their crazed high gloss existences but nothing seems to slow the roller coaster momentum of their intersecting lives and careers However after Lizzie recovering from a Microsoft deal gone awry becomes a confidante and adviser to George's boss billionaire media mogul Harold Mose the couple discovers that no amount of sophisticated spin can obscure basic instincts envy greed suspicion sexual temptation and maybe love When they and their children are finally drawn into a thrilling high tech corporate hoax that sends Wall Street reeling and makes one person very very rich George and Lizzie can only marvel at life's oversized surprises and hold on for dear life Like Tom Wolfe's Bonfire of the Vanities Kurt Andersen's Turn of the Century lays bare the follies of our age with laser beam precision creating memorable characters and dissecting the ways we think speak and navigate this new era of extreme capitalism and mind boggling technology

Entertaining imaginative knowing and wise Turn of the Century is a richly plotted comedy of manners about the way we live now The Turn of the Century/Le tournant du siècle Christian Berg, Frank Durieux, Geert Lernout, 2012-06-21 No detailed description available for The Turn of the Century Le tournant du siècle

Rhetorical Education in Turn-of-the-Century U.S. Women's Journalism Grace Wetzel, 2023-11-27 Examining the rhetorical and pedagogical work of three turn of the century newspaperwomen At the end of the nineteenth century newspapers powerfully shaped the U S reading public fostering widespread literacy development and facilitating rhetorical education With new opportunities to engage audiences female journalists repurposed the masculine tradition of journalistic writing by bringing together intimate forms of rhetoric and pedagogy to create innovative new dialogues Rhetorical Education in Turn of the Century U S Women's Journalism illuminates the pedagogical contributions of three newspaperwomen to show how the field became a dynamic site of public participation relationship building education and activism in the 1880s and 1890s Grace Wetzel introduces us to the work of Omaha correspondent Susette La Flesche Tibbles Inshta Theamba African American newspaper columnist Gertrude Bustill Mossell and white middle class reporter Winifred Black Annie Laurie Journalists by trade these three writers made the mass circulating newspaper their site of teaching and social action inviting their audiences and communities especially systematically marginalized voices to speak write and teach alongside them Situating these journalists within their own specific writing contexts and personas Wetzel reveals how Mossell promoted literacy learning and community investment among African American women through a reader centered pedagogy La Flesche modeled relational news research and reporting as a survivance practice while reporting for the Omaha Morning World Herald at the time of the Wounded Knee Massacre and Black inspired public writing and activism among children from different socioeconomic classes through her Little Jim story The teachings of these figures serve as enduring examples of how we can engage in meaningful public literacy and ethical journalism

[The 21st Century — Turning Point for the Northern Sea Route?](#) Claes Lykke Ragner, 2000-08-31 The Northern Sea Route the ice infested sea lanes running north of Siberia can potentially cut sailing distances between Northwest Europe and Northeast Asia by as much as 50% compared with present routes Further the route passes some of the world s largest deposits of oil and gas Several recent multimillion

dollar research programmes have investigated the route's commercial technological and commercial feasibility. The results of this research were presented to the Northern Sea Route User Conference in Oslo November 1999. The Conference was also told about new Russian policies on the route. The research results and Russian policy statements were assessed and commented on by representatives of international shipping organisations who also proposed the shipping industry's own view of the commercial feasibility of the NSR. The present book derived from the Conference discusses the question of international shipping on the NSR more comprehensively than has ever been witnessed before not only as a matter of theoretical research but also as a practical matter assessed in commercial political and maritime terms. Readership: All those interested in the NSR whether as a business opportunity or an object of research or environmental concern.

Intermedialities Henk Oosterling, Ewa Plonowska Ziarek, 2012-07-10. Bringing together an international and interdisciplinary group of scholars, *Intermedialities: Philosophy, Arts, Politics* is a comprehensive collection devoted to the new field of research called intermedialities. The concept of intermedialities stresses the necessity of situating philosophical and political debates on social relations in the divergent contexts of media theories, avant-garde artistic practices, continental philosophy, feminism and political theory. The intermedial approach to social relations does not focus on the shared identity but instead on the epistemological, ethical and political status of 'inter-being-in-between'. At stake here are the political analyses of new modes of being in common that transcend national boundaries, the critique of the new forms of domination that accompany them and the search for new emancipatory possibilities. Opening a new approach to social relations, intermedialities investigates not only engagements between already constituted positions but even more the interval, antagonism and differences that form and decenter these positions. Consequently, in opposition to the resurgence of cultural and ethnic particularisms and to the leveling of difference produced by globalization, the political and ethical analysis of the 'in-between' enables a conception of community based on difference, exposure and interaction with others rather than on an identification with a shared identity. Investigations of 'in-betweenness' both as medium-specific and between heterogeneous sites of inquiry range here from philosophical conceptuality to artistic practices, from the political circulation of money and power to the operation of new technologies. They inevitably invoke the crucial role of embodiment in creative thought and collective acting. As a mediating instance between the psyche and society, matter and spirit, nature and culture and biology and technology, the body is another interval forming and informed by socio-linguistic relations. As these come to the fore, The Gold Standard at the Turn of the Twentieth Century Steven Bryan, 2010. By the end of the nineteenth century the world was ready to adopt the gold standard out of concerns of national power, prestige and anti-English competition. Yet although the gold standard allowed countries to enact a virtual single world currency, the years before World War I were not a time of unfettered liberal economics and one world, one market harmony. Outside of Europe the gold standard became a tool for nationalists and protectionists primarily interested in growing domestic industry and imperial expansion. This overlooked

trend provocatively reassessed in Steven Bryan's well documented history contradicts our conception of the gold standard as a British based system infused with English ideas interests and institutions In countries like Japan and Argentina where nationalist concerns focused on infant industry protection and the growth of military power the gold standard enabled the expansion of trade and the goals of the age industry and empire Bryan argues that these countries looked less to Britain and more to North America and the rest of Europe for ideological models Not only does this history challenge our idealistic notions of the prewar period but it also reorients our understanding of the history that followed Policymakers of the 1920s latched onto the idea that global prosperity before World War I was the result of a system dominated by English liberalism Their attempt to reproduce this triumph helped bring about the global downturn the Great Depression and the collapse of the interwar world

The German Chemical Industry in the Twentieth Century John Lesch, 2000-08-31 In the twentieth century dyes pharmaceuticals photographic products explosives insecticides fertilizers synthetic rubber fuels and fibers plastics and other products have flowed out of the chemical industry and into the consumer economies war machines farms and medical practices of industrial societies The German chemical industry has been a major site for the development and application of the science based technologies that gave rise to these products and has had an important role as exemplar stimulus and competitor in the international chemical industry This volume explores the German chemical industry's scientific and technological dimension its international connections and its development after 1945 The authors relate scientific and technological change in the industry to evolving German political and economic circumstances including two world wars the rise and fall of National Socialism the post war division of Germany and the emergence of a global economy This book will be of interest to historians of modern Germany to historians of science and technology and to business and economic historians

The Thirteenth-Century Animal Turn Nigel Harris, 2020-08-28 *The Thirteenth Century Animal Turn* Medieval and Twenty First Century Perspectives examines a wide range of texts to argue in favour of a thirteenth century animal turn which not only generated a heightened scholarly awareness of animals but also had major implications for society more generally Using diverse primary sources the book considers the role of Aristotle in shaping thirteenth century perspectives on natural history Pope Innocent III's encouraging the use of animals in the theological and moral instruction of the laity the increasing relevance of animals to the promotion and assertion of lay aristocratic identity and the tension between violence and affection towards animals that pervaded the thirteenth century as it does the twenty first Analysing these many considerations Nigel Harris also argues that the thirteenth century was an era in which traditional conceptions of the fundamental anthropological difference between humans and animals was subjected to increasingly urgent questioning and challenge
