Grammar and Beyond Level 4 Student's Book John Bunting, Luciana Diniz, Laurie Blass, Randi Reppen, 2012-08-27 Grammar and Beyond is a four level North American grammar course informed by a collection of over one billion words of authentic language ensuring that students learn grammar the way it is used in real spoken and written English The Class Audio CD includes all

of the audio for the exercises in the Student's Book CEF B2 C1 *Business Writing in the Digital Age* Natalie Canavor, 2012

Business Writing in the Digital Age fills an urgent need to equip business and MBA students to write more effectively in a style that works for today's business world. Using a readable, highly accessible approach and numerous concrete examples, this book frames writing as a strategic tool to accomplish goals. Readers learn a step-by-step system that tells them what to say and how to say it in every circumstance. At the same time, they learn how to improve their technical skills by applying practical techniques rather than grammatical rules. In today's business world, success depends on writing. Those who write well are better able to win opportunities, establish their reputation, persuade others to their viewpoint, and build relationships. They collaborate, manage, and lead more effectively. Writing well also equips businesspeople to function in a global marketplace and reach increasingly diverse audiences. This book builds readers' confidence and capabilities. No matter what their starting point, they absorb a solid foundation that applies to all writing. They also learn the specifics of crafting messages and documents that range from the traditional like letters and proposals to media such as email, blogs, web sites, PowerPoint, and social networking. This broad coverage makes the material relevant and compelling. Students also develop tools to keep improving on their own and to handle new communication channels as they emerge. *Business Writing in the Digital Age* helps teachers stay current with a changing media landscape. They can use it as a complete guide to writing development, drawing on the practice opportunities and group projects supplied, or assign students to work with some or all the material on their own.

Space Transportation Walter Edward Hammond, 1999. Annotation: This practical book gives young professionals all the information they need to know to get started in the space business. It takes you step by step through processes for systems engineering and acquisition, design and development, cost analysis, and program planning and analysis. You'll find the systems engineering and design process that applies to all space transportation systems, then the overall system architecture considerations that also apply to all space transportation systems. There is also detailed coverage of space launch vehicles by class, including the current space shuttle, other manned reusable systems, expendable systems, and future systems. A companion CD-ROM contains the Operations Simulation and Analysis Modeling System software.

Lippincott Williams and Wilkins' Administrative Medical Assisting Laura Southard Durham, 2008. Lippincott Williams Wilkins *Administrative Medical Assisting*, Second Edition, teaches students the theory and skills to become effective medical office assistants. The text and ancillary resources address all the required administrative competencies for CAAHEP and ABHES program accreditation. The book includes critical thinking questions and is written for maximum readability with a full color layout, over 100 illustrations, and boxes to highlight key points. A bound-in CD-ROM and a companion Website include CMA/RMA exam preparation questions, an English to Spanish audio glossary, a clinical simulation, administrative skill video clips, competency evaluation forms, and worksheets for practice. A Skills DVD with demonstrations of the most important medical assisting skills is available separately. An Instructor's Resource CD-ROM and online instructor resources will be available gratis upon adoption.
