entire picture of what it means to be an actor focusing on the foundations of both the artist and the entrepreneur to guarantee a complete and fully functioning approach to a career The Actor's Mindset is divided into three distinct parts The Craft The Discipline and The Business Archibald's unique experience as both an actor and a coach gives him an unparalleled perspective on the current industry landscape While classic method texts still circulate and there are actors who have written books that address craft none have Archibald's depth of knowledge and experience in coaching nor approach the art from a professional standpoint instead of solely an instructional one The success of Craig's approach is exemplified by the success of his clients a roster that includes Constance Wu John Slattery and two time Academy Award Nominee Dan Futterman **The Actor's Menu** Bill Howey, 2004 Whether new to the business or a seasoned professional this handbook provides actors with a personal active approach to discovering and developing their talent Beginning with appetizers and ending with desserts actors learn how to prepare a character in the same way that a master chef chooses the most complementary dishes for a feast From typecasting to reinventing a character's story actors discover the key ingredients that will enable them to use their own unique qualities and emotions to develop strong believable characters that people are interested in watching How to identify and resolve problems such as hidden agendas that can disable an actor's work distinguish between perception feeling and emotions and find lasting sources of inspiration are among the issues explored The importance of imagination words and story as well as the difference between intellectual and visceral choices and the impact of each are also discussed

Conklin, 2012-12-06 Conklin's thesis is that the tradition of modern legal positivism beginning with Thomas Hobbes postulated different senses of the invisible as the authorising origin of humanly posited laws Conklin re

reads the tradition by privileging how the canons share a particular understanding of legal language as written. Leading philosophers who have espoused the tenets of the tradition have assumed that legal language is written and that the authorising origin of humanly posited rules/norms is inaccessible to the written legal language. Conklin's re-reading of the tradition teases out how each of these leading philosophers has postulated that the authorising origin of humanly posited laws is an unanalysable externality to the written language of the legal structure. As such, the authorising origin of posited rules/norms is inaccessible or invisible to their written language. What is this authorising origin? Different forms include an originary author, an a priori concept, and an immediacy of bonding between person and laws. In each case, the origin is unwritten in the sense of being inaccessible to the authoritative texts written by the officials of civil institutions of the sovereign state. Conklin sets his thesis in the context of the legal theory of the polis and the pre-polis of Greek tribes. The author claims that the problem is that the tradition of legal positivism of a modern sovereign state excises the experiential or bodily meanings from the written language of the posited rules/norms, thereby forgetting the very pre-legal authorising origin of the posited norms that each philosopher admits as offering the finality that legal reasoning demands if it is to be authoritative.

Secrets of Screen Directing Patrick Tucker, 2019-03-05. *Secrets of Screen Directing: The Tricks of the Trade* is a practical guide which bridges the gap between classroom learning and the realities of being on a set. Author Patrick Tucker uses insights and techniques gained from over 40 years of directing both screen and stage to open up the craft of effectively telling stories, exploring the reality of a directing career with practical day-to-day solutions and problem-solving methods for working directors. This book addresses the fact that most professional directors spend their careers directing other writers' scripts and deals with the practicalities of working on continuing dramas. Following the Director's mantra of 'show, not tell', it contains over 300 illustrations, diagrams, paperwork examples, and floor plans with lists and charts throughout.
