British Books in Print ,1924 **Materializing the Middle Passage** Jane Webster,2023-10-31 An estimated 2 7 million Africans made an enforced crossing of the Atlantic on British slave ships between c 1680 and 1807 a journey that has become known as the Middle Passage This book focuses on the slave ship itself The slave ship is the largest artefact of the Transatlantic slave trade but because so few examples of wrecked slaving vessels have been located at sea it is rarely studied by archaeologists Materializing the Middle Passage A Historical Archaeology of British Slave Shipping 1680 1807 argues that there are other ways for archaeologists to materialize the slave ship It employs a pioneering interdisciplinary methodology combining primary documentary sources maritime and terrestrial archaeology paintings maritime and ethnographic museum collections and many other sources to rebuild British slaving vessels and to identify changes to them over time The book then goes on to consider the reception of the slave ship and its trade goods in coastal West Africa and details the range and uses of the many African resources including ivory gold and live animals entering Britain on returning slave ships The third section of the book focuses on the Middle Passage experiences of both captives and crews and argues that greater attention needs to be paid to the coping mechanisms through which Africans survived yet also challenged their captive passage Finally Jane Webster asks why the African Middle Passage experience remains so elusive even after decades of scholarship dedicated to uncovering it She considers when how and why the crossing was remembered by saltwater captives in the Caribbean and North America The marriage of words and things attempted in this richly illustrated book is underpinned throughout by a theoretical perspective combining creolization and postcolonial theory and by a central focus on the materiality of the slave ship and its regimes **Liberia** Frederick Starr,2022-05-29 Frederick Starr s **Liberia** offers a meticulously researched and thought provoking look into the complex political and historical landscape of Liberia Within its pages Starr juxtaposes the young nation s struggles with governance and identity against broader themes of post colonial African sovereignty The text resonates with Starr s clear analytical prose driven by rich ethnographic data and a historian s

attention to detail This work is not only a testament to Liberia's unique place in world history but also a mirror reflecting the broader challenges faced by emerging states in the post colonial era The literary style marries academic rigor with accessible narrative making it a significant contribution to the canon of African studies and political anthropology Frederick Starr a luminary in the disciplines of anthropology and education possesses a profound interest in the social and political dynamics of African countries His academic pursuits and personal passion for the continent's diverse cultures and historical trajectories have significantly shaped Liberia Deeply invested in the study of societal structures within colonial contexts Starr's expertise grants him a unique perspective on the intersection of indigenous systems and external influences in the forging of a nation state Liberia is an indispensable read for scholars and students of African studies political science and colonial history as well as for a broader audience seeking to understand the nuances of African self governance and external administrative legacies Starr's work is an enlightening journey that broadens our understanding of statehood and cultural resilience It is a commendable choice for anyone interested in the real world applications of anthropological theory and the enduring influence of history on present day political realities
