Joyce Chang, 2020-01-07 Cutting edge and student friendly Choices in Relationships takes readers through the lifespan of relationships marriages and families and utilizes research to help them make deliberate informed choices in their interpersonal relationships *Century Edition of The American Digest* , 1902 **Reports of cases decided in the High Court of Madras** , 1864 *Flowing Progress* Stefan Dorondel, Luminita Gatejel, 2025-08-15 Flowing Progress Transforming the Danube Through Infrastructure focuses on how different political regimes and forms of governance have imagined and technologically transformed the most international river in the world Multidisciplinary and drawing on methodologies of history anthropology of infrastructure and science technology and society this collection explores the tensions between the river and its natural pulses the humans that populate its floodplains state agencies and infrastructure The book engages the concept of disturbance to point out the circular and spiraling dynamics between hydrological processes and technopolitical and economic practices Disturbance denotes a specific type of long term dynamic between human attempts to control the Danube the material systems they implemented to achieve these goals and the agency of the

river that both enabled the functioning of infrastructure and the breakdown of such arrangements. It draws particular attention to the concerted efforts to contain and optimize the Danube's flow, adding layer after layer of dams, channels, and pipes that could potentially escalate the power of a leashed river. Taking a longer historical perspective from the sixteenth century until today, the volume provides a variety of relevant case studies and local contexts in the Ottoman and Habsburg empires and their successor states: Austria, Hungary, Bulgaria, Romania, and Serbia, which show different ways of how humans have imagined and coped with this mighty river.

Modernity and the Ideals of Arab-Islamic and Western-Scientific Philosophy A. Z. Obiedat, 2022-07-08. This is the first study to compare the philosophical systems of secular scientific philosopher Mario Bunge (1919–2020) and Moroccan Islamic philosopher Taha Abd al-Rahman (b. 1945). In their efforts to establish the philosophical underpinnings of an ideal modernity, these two great thinkers speak to the same elements of the human condition despite their opposing secular and religious worldviews. While the differences between Bunge's critical realist epistemology and materialist ontology on the one hand and Taha's spiritualist ontology and revelational mystical epistemology on the other are fundamental, there is remarkable common ground between their scientific and Islamic versions of humanism. Both call for an ethics of prosperity combined with social justice and both criticize postmodernism and religious conservatism. The aspiration of this book is to serve as a model for future dialogue between holders of Western and Islamic worldviews in mutual pursuit of modernity's best case scenario.

The Social History of the American Family Marilyn J. Coleman, Lawrence H. Ganong, 2014-09-02. The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the ideal family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture, including mass media, families and religion, families and the economy, families and social issues, families and social stratification, and conflict; family structures, including marriage and divorce, gender roles, parenting, and children; and mixed and non-modal family forms and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrates themes across time. The signed articles, with cross-references and further readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. *The Social History of the American Family* is an ideal reference for students and researchers who want to
