materialism Ancient World: Reader, 5th ed. , **Circles and the Cross** Loren Wilkinson,2023-08-21 Circles and the Cross is an invitation to explore two mysteries One is the miracle of the cosmos why is there something and not nothing The other is the miracle of consciousness why should this collection of stardust be an I and not just an it Our basic response to those mysteries is wonder and from wonder have grown the three great trees of human culture religion art and science This exploration is undertaken in the light of a third mystery the cross of Christ is the clearest picture we have of the triune Creator of both cosmos and consciousness That self emptying of the Creator out of love for the creation helps us understand the pleasures paradoxes and pains of science it helps us understand how evolution can be another name for creation it casts light on the Enlightenment and Romanticism In particular it illuminates the environmental movement an ethic in search of a religion Loren Wilkinson drawing on fifty years of teaching and writing about our relationship to creation invites you to join this journey into understanding how the cross of Christ sheds light on the mysteries that surround us and gives us hope in a difficult age **Twilight of the Gods** Erich von Däniken,2025-09-12 Bestselling author Erich von Däniken delves into the mysteries of the Mayan civilization and when the extraterrestrial will return Includes a Foreword by Giorgio Tsoukalos High up in the Bolivian Andes 4 000 meters above sea level lies Puma punku an ancient ruined city that simply could never have been constructed by its Stone Age inhabitants Something here really stinks to high heaven writes Erich von Daniken In Twilight of the Gods says von Daniken I document precisely what it was that left the first visitors breathless as they stood before the mighty stone blocks some 400 years ago I will show you what archeologists discovered hundreds of years ago and demonstrate how much has been destroyed over the centuries Intentionally I will also prove that Puma punku was not built by any Stone Age people And in December 2012 the gods will return from their long journey and appear again here on Earth At least that is what the Mayan calendar would have us believe The so called gods the extraterrestrials will come again We re headed for a god shock of major proportions But doesn t anyone with half a brain know that interstellar travel is simply impossible because of the sheer distances involved And that extraterrestrials would never look like us Well dear readers I destroy these preconceptions Systematically One bit at a time In his own inimitable way Erich von Daniken picks these preconceptions and prejudices apart with a clarity no other author could manage **Modern Creation Trilogy, The** Henry Madison Morris,John M. Morris,1997 The Modern Creation Trilogy is the culmination of decades of study of the classic confrontation between evolution and creation Authors Henry Morris and John Morris president of the Institute for Creation Research detail the case for Biblical creationism Book One Scripture and Creation Book Two Science and Creation Book Three Society and Creation New Proofs for the Existence of God Robert J. Spitzer,2010-07-27 With the incredible popularity of recent books championing agnosticism or atheism many people might never know that such books almost completely ignore the considerable evidence for theism uncovered in both physics and philosophy over the past four decades New Proofs for the Existence of God responds to these glaring omissions From universal space time asymmetry to cosmic

coincidences to the intelligibility of reality Robert Spitzer tackles a wealth of evidence He considers string theory quantum cosmology mathematical thoughts on infinity and much more This fascinating and stunning collection of evidence provides solid grounding for reasonable and responsible belief in a super intelligent transcendent creative power standing at the origins of our universe

Making Sense of God Timothy Keller,2016-09-20 We live in an age of skepticism Our society places such faith in empirical reason historical progress and heartfelt emotion that it s easy to wonder Why should anyone believe in Christianity What role can faith and religion play in our modern lives In this thoughtful and inspiring new book pastor and New York Times bestselling author Timothy Keller invites skeptics to consider that Christianity is more relevant now than ever As human beings we cannot live without meaning satisfaction freedom identity justice and hope Christianity provides us with unsurpassed resources to meet these needs Written for both the ardent believer and the skeptic Making Sense of God shines a light on the profound value and importance of Christianity in our lives

The Voice of the Earth Theodore Roszak,2001-01-01 What is the bond between the human psyche and the living planet that nurtured us and all of life into existence What is the link between our own mental health and the health of the greater biosphere In this bold ambitious philosophical essay Publishers Weekly historian and cultural critic Roszak explores the relationships between psychology ecology and new scientific insights into systems in nature Drawing on our understanding of the evolutionary self organizing universe Roszak illuminates our rootedness in the greater web of life and explores the relationship between our own sanity and the larger than human world The Voice of the Earth seeks to bridge the centuries old split between the psychological and the ecological with a paradigm which sees the needs of the planet and the needs of the person as a continuum The Earth s cry for rescue from the punishing weight of the industrial system we have created is our own cry for a scale and quality of life that will free us to become whole and healthy This second edition contains a new afterword by the author

The Creator Revealed Michael G. Strauss PhD,2018-06-21 Do current scientific discoveries support or contradict the story of creation in the Bible Does science give evidence for or against God s existence Does it matter what you think about origins science and the Bible Does your understanding of science and creation affect your daily living or your relationship with God In The Creator Revealed author and physicist Dr Michael G Strauss explores these central questions about science and faith in simple and entertaining language showing how modern scientific discoveries about the origin and design of the universe proclaim the character of God and agree with the biblical story of creation For the Christian confronted with possible inconsistencies between faith and science and for the skeptic who believes modern science has shown that belief in God is unnecessary The Creator Revealed can demonstrate the glory power and wonder of God by looking at science the Bible and the effect that truth has on people s lives Reconciling the truth of scripture with the truth of science can change your perspective and your life The message of The Creator Revealed will expand your idea of who God is increase your faith in him and provide a way to share this revelation of God in creation with others
