and Pathology of Membrane Digestion A.M. Ugolev,2013-11-09 The physiology and pathology of membrane contact or surface digestion of the three main components of the food of animals and man is a rapidly developing field and there is little doubt that newer ob servations will become available as time progresses As the dis coverer of the phenomenon of membrane digestion Professor Ugolev is well aware of the relative infancy of this subject and in presenting the book at this time his primary purpose was to acquaint the reader with the experimental basis for the observed phenomenon and to stimulate interest in the further work required for the elucidation of details and for proper orientation Translations as means of communication of ideas and experimental facts are of obvious importance and they require no apologies or explanations particularly to those who are engaged in scientific endeavors In making this book available to those who find the Russian language an insurmountable barrier our main efforts were directed toward preserving the author s meaning spirit and intent as accurately as possible It is hoped that this objective has been attained and that the minor unintentional errors will be forgiven by the reader and by the author The translator wishes to express to Professor Ugolev whom he met in Leningrad in 1965 his appreciation for the trust in the ability of the translator to make Professor Ugolev s labor oflove the present book available in the English language **An Interdisciplinary Theory of Activity** Andy Blunden,2010-04-06 Andy Blunden

presents an immanent critique of Cultural Historical Activity Theory the current of psychology originating from Lev Vygotsky 1896 1934 Tracing the roots of this theory from Goethe Hegel and Marx the author draws out the principles with which Vygotsky developed a theory of the mind in which the individual and their social situation form a single Gestalt transcending the problems of mind body dualism Blunden follows the efforts of later members of the School to resolve outstanding problems in Vygotsky s work This includes a critical appropriation of Leontyev s Activity Theory and Michael Cole s cross cultural research on the role of context in learning The outcome is a concept of activity which transcends the division between individual and social domains in human sciences Quantitative Structure-Activity Relationship (QSAR) Models of

Mutagens and Carcinogens Romualdo Benigni,2003-02-26 Applied with success in a number of areas QSAR studies have become particularly popular in the rational design of drugs and pesticides Much has been published on the principles of

QSAR in this area but not on their applications to toxic chemicals This book provides the first comprehensive interdisciplinary presentation of QSAR studies on **Tissue Type Plasminogen Activity** Cornelius Kluft, 2018-01-18 This book is made possible by the enthusiastic contributions of the authors of the chapters They have been invited from young and active scientists in the field of t PA research I am grateful for their contribution and for the fact that all accepted the specifications of their chapter in order to obtain a structured book Inevitably some overlap does exist on the one hand to enable controversial or unsettled areas to be discussed by the different experts with a different approach and background It is a particular pleasure and honor that Dr T Astrup as an eye witness and essential contributor to the history of t PA discovery and research gives a unique account of the history of t PA research in the first chapter of the book Bibliography of the Fischer-Tropsch Synthesis and Related Processes: Review and compilation of the literature on the production of synthetic liquid fuels and chemicals by the hydrogenation of carbon monoxide Hazel C.
