nurturing emotional intelligence and teaching children to think critically is particularly useful. A must read for anyone seeking to build a healthier and more positive relationship with their children. A solid and insightful parenting guide. Subhash Jain's approach to parenting focusing on empowering children rather than controlling them is refreshing. The book offers helpful advice on handling emotional concerns and school related issues. However I would have liked to see more examples or real life scenarios to illustrate some of the concepts. The Art of Parenting offers great wisdom for parents who want to foster emotional and intellectual growth in their children. The emphasis on kindness, patience and mutual respect stands out. The book is easy to read and filled with practical tips. A fantastic read for those who want to create a nurturing environment for their children. While The Art of Parenting provides useful advice on various parenting challenges, I found some parts of the book to be a bit repetitive. The tips are practical but I was hoping for more depth in certain areas, especially regarding dealing with teenage children. Still, it's a solid starting point for new parents. The book provides a good overview of parenting principles but I was expecting more detailed strategies for specific age groups. Subhash Jain touches on a lot of important topics but some sections could have benefited from more in-depth exploration. Overall, it's a helpful guide but it may not cover every situation in depth.

The Art Of Parenting Debolina Dhamali Chakraborty, 2021-03-03 Raising a child is wonderful as well as very challenging Once they born we are very happy and slowly we start seeing dreams about their future By the time we really understand what is happening they grow and then it becomes more exhausting for us We start doubting ourselves our potential to raise the child We start comparing other parents and children whether they are good or we are on the correct path and doing a fair job Slowly this becomes a habit and we start feeling exhausted with this And all these doubts irritations occur as we do not have any benchmark or manual for the right parenting 1 We will be learning about some areas where we struggle with our children How to deal with it how to cope up and give an excellent environment to our children to grow more and more for betterment 2 We will learn how to see the world from a child s eye 3 What kind of trouble we may face and to understand the psychology behind the behaviors Once we understand this we can easily solve it Parenting it s not there from birth It has to be learnt It is a skill that needs to be learnt It is difficult but not impossible But once we know the tricks we can easily do it by balancing the rest of the things in our lives Parents are the path provider and the mentor to tell children about the right path Parenthood is all about behaving ourselves changing our habits doing good to ourselves and being happy from inside Research says that love is the component that actually develops the brain of a child much faster These children who get a positive happy environment shows ultimate success in life They will be knowing handling failures They will be ready to face any situation with conviction
