The Ashtray Of The Universe Chapter One English Edition:

The Ashtray Errol Morris, 2018-05-16 Filmmaker Errol Morris offers his perspective on the world and his powerful belief in the necessity of truth In 1972 philosopher of science Thomas Kuhn threw an ashtray at Errol Morris This book is the result At the time Morris was a graduate student Now we know him as one of the most celebrated and restlessly probing filmmakers of our time the creator of such classics of documentary investigation as *The Thin Blue Line* and *The Fog of War* Kuhn meanwhile was and posthumously remains a star in his field the author of *The Structure of Scientific Revolutions* a landmark book that has sold well over a million copies and introduced the concept of paradigm shifts to the larger culture And Morris thought the idea was bunk *The Ashtray* tells why and in doing so it makes a powerful case for Morris's way of viewing the world and the centrality to that view of a fundamental conception of the necessity of truth For me Morris writes truth is about the relationship between language and the world a correspondence idea of truth He has no patience for philosophical systems that aim for internal coherence and disdain the world itself Morris is after bigger game he wants to establish as clearly as possible what we know and can say about the world reality history our actions and interactions It's the fundamental desire that animates his filmmaking whether he's probing Robert McNamara about Vietnam or the oddball owner of a pet cemetery Truth may be slippery but that doesn't mean we have to grease its path of escape through philosophical evasions Rather Morris argues powerfully it is our duty to do everything we can to establish and support it In a time when truth feels ever more embattled under siege from political lies and virtual lives alike *The Ashtray* is a bracing reminder of its value delivered by a figure who has over decades uniquely earned our trust through his commitment to truth No Morris fan should miss it

Confucian Values and Popular Zen Janine Anderson Sawada, 2020-12-31 Although East Asian religion is commonly characterized as syncretic the historical interaction of Buddhist Confucian and other traditions is often neglected by scholars of mainstream religious thought In this thought provoking study Janine Sawada moves beyond conventional approaches to the history of Japanese religion by analyzing the ways in which Neo Confucianism and Zen formed a popular synthesis in early modern Japan She shows how Shingaku a teaching founded by merchant Ishida Baigan blossomed after his death into a widespread religious movement that selectively combined ideas and practices from these traditions Drawing on new research into original Shingaku sources Sawada challenges the view that the teaching was a facile merchant ethic by illuminating the importance of Shingaku mystical experience and its intimate relation to moral cultivation in the program developed by Baigan's successor Teshima Toan This book also suggests the need for an approach to the history of Japanese education that accounts for the informal transmission of ideas as well as institutional schooling Shingaku contributed to the development of Japanese education by effectively disseminating moral and religious knowledge on a large scale to the less educated sectors of Tokugawa society Sawada interprets the popularity of the movement as part of a general trend in early modern Japan in which ordinary people sought forms of learning that could be pursued in the context of daily life

Burgess of the Cambridge spies Burgess Maclean Philby and Blunt admitted his espionage to Rees His association with Burgess was to blight the rest of Rees s life When Burgess defected in 1951 and Rees denounced him to MI5 Rees was viewed more as a spy out to save his own skin than as an honorable citizen His anonymous sensationalist articles in The People denouncing Burgess s political activities and all but naming names condemned him with the British intellectual community not for his politics but for his betrayal of a friend Colleagues and acquaintances accused him of trying to initiate a McCarthyite witch hunt He lost his job His academic career was ruined In Looking for Mr Nobody Jenny Rees deals with many of the old charges made against her father in her search for the answer to her own question Was he too a spy Had he joined up with Burgess and Blunt and passed secrets to the Soviet Union Her quest for the truth reveals a fascinating portrait of a brilliant but flawed man of letters handsome and seductively charming caught up in the radical political commitments of the 1930s Communist Party membership and his tortured relationship with the notorious Cambridge spies In a straightforward unsentimental manner the author reviews the main aspects of Rees s career professional affiliations his conflict with academic enemies and his anti Communist writings for Encounter after the war While Fleet Street continued to denounce Rees as a suspected Soviet agent his daughter went to the only place that could give his ghost rest to the files of the KGB in Moscow There she found proof that as his friends had always believed he had never been recruited by the KGB and whatever intelligence links he may have had with Burgess were severed in 1939 Jenny Rees s book reads like a parable of the Cold War It provides additional insight into the troubled decade of the 1930s and will be of interest to students of politics and the Cold War social history and the general reader concerned with moral and intellectual dilemmas of modern times The introductory essay by Diana Trilling places this riveting story in the context of place and time Jenny Rees Goronwy Rees s eldest child has been a newspaper journalist for most of her working life She has been a reporter and feature writer for the Daily Mail the Daily Express and the Daily Telegraph [Skyhook](#) Werner Lossau,2011-10-11 SKYHOOK deals with the spirituality of man as well as with hidden mind content that influences him daily often adversely When Art Painter the inventor of Nuon a gas lighter than hydrogen discovers that he has schizophrenic tendencies he follows the malady s cause back to prehistoric times when the Earth was colonized by inhabitants of a strange planet Art s journey takes him from the dim reaches of a dangerous past into an unsavory present where he has to work out his own salvation and that of those dear to him Part One of SKYHOOK Creator s Fate is set in ancient Earth times For Part Two Embodiment s Consequences and Part Three Duality s Dilemma today s South Africa is the setting **Sounding New Media** Frances Dyson,2009-09-04 Examines the long neglected role of sound and audio in the development of a new media theory and practice including new technologies and performance art events with particular emphasis on embodiment art and technological interactions focusing on technologies that became available in the mid twentieth century electronics imaging and digital and computer processing [Alien Abductions and UFO Sightings 5-Book Bundle](#) Chris A.
