Below the hand, on a dark, textured surface, are three other emerald gemstones: one large rectangular step-cut emerald on the left, and two smaller rectangular step-cut emeralds on the right. The lighting is dramatic, highlighting the facets of the gemstones.

Veteran Poetics Catherine Mary McLoughlin,2018-05-24 Illustrates how war veterans have been used in British literature since the 1790s to explore being knowing and storytelling **Modernism in Wonderland** John D. Morgenstern,Michelle Witen,2024-01-11 Retracing the steps of a surprising array of 20th century writers who ventured into the fantastical topsy turvy world of Lewis Carroll s fictions this book demonstrates the full extent of Carroll s legacy in literary modernism Testing the authority of language and mediation through extensive word play and genre bending the Alice books undoubtedly prefigure literary modernism at its upmost experimental The collection s chapters look beyond literary style to show how Carroll s writings had a far reaching impact on modern life from commercial culture to politics and philosophy This book shows us the Alice we recognize from Carroll s novels but also the Alice modernist writers encountered through the looking glass of these extraliterary discourses Recovering a common touchstone between the likes of T S Eliot James Joyce Virginia Woolf W H Auden and writers conventionally regarded on the periphery of modernist studies such as Dorothy L Sayers Sylvia Plath Jorge Luis Borges Flann O Brien and Vladimir Nabokov this volume ultimately provides a new entry point into a more broadly conceptualised global modernism *Aristophanes: Peace* Ian C. Storey,2019-01-10 This is the first volume dedicated to Aristophanes comedy *Peace* that analyses the play for a student audience and assumes no knowledge of Greek It launches a much needed new series of books each discussing a comedy that survives from the ancient world Six chapters highlight the play s context themes staging and legacy including its response to contemporary wartime politics and the possible staging options for flying It is ideal for students but helpful also for scholars wanting a quick introduction to the play *Peace* was first performed in 421 BC perhaps only days before the signing of a peace treaty that ended ten years of fighting

between Athens and Sparta the Archidamian War Aristophanes celebrates this prospect with an imaginative fantasy involving his hero's flight on a gigantic dung beetle to Olympus the rescue of the goddess Peace from her imprisonment in a cave and her return to a Greece weary of ten years of war Like most of the poet's comedies this play is heavy on fantasy and imagination light on formal structure being an exuberant farce that champions the opponents of War and celebrates the delights of the return to country life with its smells food and drink its many pleasures and none of the complications that war brings in its wake

Author Fictions Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have been a staple of novels and stories from the early nineteenth century onwards What is it that attracts authors to representing their own kind in fiction Author Fictions addresses this question from a theoretical and historical perspective Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time they also take an active part in negotiating and shaping these conditions The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging from the Victorian bildungsroman to contemporary autofiction It combines rhetorical and sociological approaches to answer the question how literature makes authors Identifying author fictions as narratives that address the fragile material

conditions of literary creation in the actual and symbolic economies of production Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship This book will be relevant to English American and comparative literary studies and to anyone interested in the topic of literary authorship
