The Tip of the Sword H. Eddie Fields,2025-06-18 The religious and faithful aspect of our Christian forefathers fight for freedom is a fascinating struggle especially when studied from the proper perspective The facts demonstrate God s hand and influence upon the colonies and our nation s founders It is a history that should be diligently studied and understood How can we as a nation ever determine where we are going if we do not understand our past How do we grasp and hold onto our nation s fundamental beliefs values and principles if we do not understand what they are or how they came to be Do not our beliefs values and principles make us this great nation that has been blessed by Almighty God All Americans should know their forefathers pursued liberty and fought for reasons far beyond economic freedom and political power

American secular historians who simply list a desire for religious freedom as one of many causes of the revolution fail us at every level of understanding the persecution that colonists endured Consider the majesty and faith of the words of the founding fathers in the profound commitment of the signatories at the end of the Declaration of Independence And for the support of this Declaration with a firm reliance on the protection of Divine Providence we mutually pledge to each other our lives our fortunes and our sacred honor There is no question upon whom they relied and no doubt about their faith or commitment to one another The early American statesman Daniel Webster clearly and concisely stated his beliefs when he said History is God s providence in human affairs Webster could never have conceived that anyone would write a history excluding God from the story If it is truthful history must acknowledge God s role in it That is the driving theme in this history of the pioneers patriots and preachers of Sinking Creek Baptist Church and the Watauga Settlement It is my hope that every reader will recognize and embrace the influence of God in the lives and circumstances of our founding fathers

be suggestively paralleled in Homeric epic and some of the same techniques of allusion can be found in Near Eastern poetry of the third and second millennia BC By attending to these various paradigms this challenging study argues for a new understanding of Homeric allusion and its place in literary history broaching the question of whether there can have been historical continuity in a poetics of allusion stretching from the Mesopotamian epic of Gilgamesh via the Iliad and Odyssey to the Aeneid and Metamorphoses despite the enormous disparities of time and place and of language and culture including those represented by the cuneiform tablet the papyrus roll and by an oral performance culture The fundamental methodological problems are explored through a series of interlocking case studies treating of how the Odyssey conceivably alludes to the Iliad and also to earlier poetry on Odysseus homecoming the Iliad to earlier poetry on the Ethiopian hero Memnon the Homeric Hymn to Demeter to earlier poetry on Hades abduction of Persephone and early Greek epic to Mesopotamian mythological poetry pre eminently the Babylonian epic of Gilgamesh
