The Babylonian Gilgamesh Epic A. R. George, 2003 **The Babylonian Gilgamesh epic : introduction, critical edition and cuneiform texts. 2** Andrew R. George, 2003 The Babylonian Gilgamesh Epic A. R. George, 2003 The Oxford Critical Guide to Homer's Iliad, 2024-06-24 The Oxford Critical Guide to Homer's Iliad investigates each of the Iliad's twenty four books proceeding in order from book 1 to book 24 and devoting one chapter to each one Contributors summarize the plot of a book and then explore its themes and poetics providing both close readings of individual passages and synthetic reviews of current scholarship This format allows readers to study the poem in the same manner in which they read it book by book Differing from other introductions to the Iliad that comprise chapters on specific topics and themes the volume offers accessible and actionable discussions of concepts pertinent to each book of the poem Differing from other introductory volumes that are written by a single author this volume allows for a polyphony of critical voices and showcases the diversity of approaches to the Iliad Finally differing from commentaries keyed to the Greek text this volume is completely accessible to those who do not read Homeric Greek These features make the volume an essential resource for those studying the Iliad in translation and in the original Greek for those in classical studies and in other disciplines and for teachers and students both those at the undergraduate level and those at the graduate level , 2018-11-30 The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and

Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts
