House and Society in the Ancient Greek World Lisa C. Nevett,2001-05-10 This 1999 book re examines traditional assumptions about the nature of social relationships in Greek households during the Classical and Hellenistic periods Through detailed exploration of archaeological evidence from individual houses Lisa Nevett

identifies a recognisable concept of the citizen household as a social unit and suggests that this was present in numerous Greek cities She argues that in such households relations between men and women traditionally perceived as dominating the domestic environment should be placed within the wider context of domestic activity Although gender was an important cultural factor which helped to shape the organisation of the house this was balanced against other influences notably the relationship between household members and outsiders At the same time the role of the household in relation to the wider social structures of the polis or city state changed rapidly through time with the house itself coming to represent an important symbol of personal prestige

Outstanding individuals have the whole world as their memorial Pericles The influence of ancient Greek civilization has been felt throughout modern Western history Greek ideas can be found in the laws that govern our lives the buildings in which we live the books we read and the vocabulary we use every day Because these ideas have become so much a part of our daily life we tend to forget that they originated more than 2 500 years ago Ancient Greeks chronicles the lives and accomplishments of Greek figures whose influence continues to be felt today We read about Greeks from all walks of life including one of the greatest physicians who ever lived the father of logic and a brilliant mathematician who once said Give me a lever long enough and a fulcrum strong enough and I will single handedly move the world And move the world he did but with his ideas not a mighty fulcrum In 42 essays authors Rosalie and Charles Baker explore the lives of many personalities from the most famous Greeks to people who are usually overlooked including Aesop author of timeless fables that continue to provide lessons today Lycurgus the legendary ruler of Sparta Plato the great philosopher who established the Academy in Athens Phidippides a courier and long distance runner whose run from Marathon to Athens became the basis of the modern marathon Sappho one of the best female poets of classical antiquity Hippocrates one of the greatest physicians who ever lived Alcibiades a patriot turned traitor who was exiled from Greece Ictinus the architect responsible for the design of the Parthenon Aristotle the father of logic who tutored the teenage Alexander the Great Alexander the Great who ruled Greece defeated the great Persian empire conquered lands bordering the eastern Mediterranean Sea including Egypt and won control of lands stretching into India and all that before his 33rd birthday Zeno founder of the philosophy known as Stoicism The biographies span the years 700 B C to 200 B C from Homer the master of epic poetry and the author of the Iliad to Eratosthenes a brilliant mathematician who was the first to calculate the earth's circumference A handy fact box that lists birth and death dates and the major accomplishments of each person profiled abundant photographs and specially commissioned maps a timeline a glossary of Greek terms an

Harris, David M. Lewis, Mark Woolmer, 2016 *Markets Households and City States in the Ancient Greek Economy* brings together sixteen essays by leading scholars of the ancient Greek economy The essays investigate the role of market exchange in the economy of the ancient Greek world in the Classical and Hellenistic periods **The Home Life of the Ancient Greeks** Hugo Blümner, 1893 **A Dictionary of the Ancient Greek World** David Sacks, 1995 More than four thousand years ago a warrior people invaded the rugged hills and fertile plains of the Balkan Peninsula These people were the ancient Greeks and their legacy to modern global society is

Ancient Greek Housing Lisa C. Nevett, 2023-05-25 The temples and theatres of the ancient Greek world are widely known but there is less familiarity with the houses in which people lived In this book Lisa Nevett provides an accessible introduction to the varied forms of housing found across the Greek world between c 1000 and 200 BCE Many houses adopted a courtyard structure which she sets within a broader chronological geographical and socio economic context The book explores how housing shaped and was shaped by patterns of domestic life at Athens and in other urban communities It also points to a rapid change in the scale elaboration and layout of the largest houses This is associated with a shift away from expressing solidarity with peers in the local urban community towards advertising personal status and participation in a network of elite households which stretched across the Mediterranean Instructors students and general readers will welcome this stimulating volume
