The Ascendent Angels Angela Brooks, 2014-10-28 *John Dee's Natural Philosophy* Nicholas Clulee, 2013-02-15 This is the definitive study of John Dee and his intellectual career Originally published in 1988 this interpretation is far more detailed than any that came before and is an authoritative account for anyone interested in the history literature and scientific developments of the Renaissance or the occult John Dee has fascinated successive generations Mathematician scientist astrologer and magus at the court of Elizabeth I he still provokes controversy To some he is the genius whose contributions to navigation made possible the feats of Elizabethan explorers and colonists to others an alchemist and charlatan Thoroughly examining Dee's natural philosophy this book provides a balanced evaluation of his place and the role of the occult in sixteenth century intellectual history It brings together insights from a study of Dee's writings the available biographical material and his sources as reflected in his extensive library and more importantly numerous surviving annotated volumes from it *Confessions of a Rebel Angel* Timothy Wyllie, 2012-09-28 A rebel angel's observations from her half million years on Earth and her perspective on the spiritual journey of her human charge Explains the hidden motivations behind Lucifer's angelic rebellion 203 000 years ago and watcher Georgia's participation in it Explores the benevolent intentions of the Multiverse both in quarantining our planet to contain the rebellion and in now allowing our return Describes how the coming spiritual transition will be gentle and our future positive More than two hundred millennia ago the high angel Lucifer launched a revolution among the angelic hierarchy which led to the quarantine of 37 planets including our own from the rest of the Multiverse Now after eons of isolation the rebel angels are being redeemed and we are being welcomed back into the benevolent and caring Multiverse with a massive transformation of consciousness and a reconnection to our celestial destiny Writing through Timothy Wyllie rebel angel Georgia describes her half a million years stationed on Earth as a watcher Arriving 500 000 years ago as part of the first angelic expedition to Earth sent here to prepare the indigenous inhabitants for higher consciousness she details the archaic roots of humanity and explains the connections between the 7 dimensions of intelligent life and the chakras as well as how beauty and creativity are vehicles for angelic inspiration Interweaving her story with parallel observations of Wyllie's youth in World War II England and his spiritual journey beginning with the Process Church Georgia explains the motivations behind Lucifer's uprising and the lasting impact it has had among the angels on Earth and on humanity's natural spiritual development Revealing that there are more than 90 million rebel angels currently incarnated on Earth almost all of whom are unaware of their previous celestial lives Georgia explains how this is their opportunity to personally redeem the past and contribute their particular talents to the world She calls on all of us especially these incarnate angels to wake up to who we truly are and embrace our spiritual heritage as earthly vessels for God's presence In this way we can prepare for the imminent transformation of global consciousness and embrace the astonishing and wondrous destiny facing our world **Unity** ,1917 The Way in Divine Metaphysics J. Grey Aliens and the Harvesting of Souls Nigel Kerner,2010-01-19 Exposes the agenda behind the bio robotic grey aliens genetic manipulation of certain human races Reveals the Grey s nature as sophisticated self aware machines created by a long vanished extraterrestrial civilization Explains how their quest to capture human souls appears in the historical record from biblical times Explains how the phenomenon of racism is a by product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not souls Through the manipulation of human DNA these aliens hope to create their own souls and thereby escape the entropic grip of the material universe in favor of the timeless realm of spirit Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity such as violence greed and maliciousness Racism he contends was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence Examining historical records Kerner shows that Jesus who represented an uncorrupted genetic line warned his disciples about the threat posed by these alien interlopers while Hitler a pure product of this alien intelligence waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering Despite the powerful grip the Greys have on humanity Kerner says that all hope is not lost Greys exist wholly in the material world so if we follow the spiritual laws of reincarnation and karma

aiming for enlightenment and rising above the material a state the Greys are unable to reach we can free ourselves from their grasp

Angels Michel Serres, 1995 In this new work Michel Serres France's foremost philosopher of science explores how traditional images of angels in art and legend foretell the preoccupations of modern life Divided as between Heaven and Hell into First and Third Worlds our societies search for ways to make contact both by means of the most basic interpersonal relations and high tech communications The role of the messenger Serres argues is as important now as it was in Biblical times perhaps more and yet we lack a philosophy which can explain this role a philosophy of movement of communication Angels A Modern Myth offers such a philosophy showing how angels as message bearers are still part of our modern world our means of bringing together and understanding science law and religion and perhaps also the means of satisfying our need for reason justice and consolation Abundantly illustrated with an astounding breadth of images ranging from Renaissance paintings to film stills
