The Dynamics of Powerful Parenting Raymond Messer, 2005 The Dynamics of Powerful Parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts Often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor Usually the result will be more of the same only worse A secret to understanding the dynamics of many human behaviors lies in the paradox of the Chinese Finger Puzzle aka Chinese Handcuff The Chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person's fingers true to its nature the tube will

narrow as its ends are pulled Thus when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject's efforts to pull his or her fingers apart are met with increasing resistance from the device So it is with much of being human The thing that people wish to avoid most is the very thing that results from their efforts to do so Dynamics is a book written with this paradox in mind It is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional parenting efforts It is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility Dynamics encourages parents to think about what they are doing how they are doing it and what they are experiencing as a result then provides useful tools for changing undesired outcomes It is a book that can produce positive results that will benefit generations yet unborn **The Lure of the Image** Daniel Morgan, 2021-08-17

The Lure of the Image shows how a close study of camera movement challenges key assumptions underlying a wide range of debates within cinema and media studies Highlighting the shifting intersection of point of view and camera position Daniel Morgan draws on a range of theoretical arguments and detailed analyses across cinemas to reimagine the relation between spectator and camera and between camera and film world With sustained accounts of how the camera moves in films by Fritz Lang Guru Dutt Max Ophuls and Terrence Malick and in contemporary digital technologies The Lure of the Image exposes the persistent fantasy that we move with the camera within the world of the film and examines the ways that filmmakers have exploited this fantasy In so doing Morgan provides a more flexible account of camera movement one that enables a fuller understanding of the political and ethical stakes entailed by this key component of cinematic style *The Living Paradox*

The Palgrave Handbook of Popular Culture as Philosophy Dean A. Kowalski, Chris Lay, Kimberly S. Engels, 2024-04-30 Much philosophical work on pop culture apologises for its use using popular culture is a necessary evil something merely useful for reaching the masses with important philosophical arguments But works of pop culture are important in their own right they shape worldviews inspire ideas change minds We wouldn't balk at a book dedicated to examining the philosophy of The Great Gatsby or 1984 why aren't Star Trek and Superman fair game as well After all when produced the former were considered pop culture just as much as the latter This will be the first major reference work to right that wrong gathering together entries on film television games graphic novels and comedy and officially recognizing the importance of the field It will be the go to resource for students and researchers in philosophy culture media and communications English and history and will act as a springboard to introduce the reader to the other key literature in the field

A Broken Journey Mary Gaunt,2017-07-04 Each time I begin a book of travel I search for the reasons that sent me awandering Foolishness for I ought to know by this time the wander fever was born in my blood it is in the blood of my sister and brothers We were brought up in an inland town in Victoria Australia and the years have seen us roaming all over the world I do not think any of us has been nearer the North Pole than Petropaulovski or to the South Pole than Cape Horn children of a sub tropical clime we do not like the cold but in many countries in between have we wandered The sailors by virtue of their profession have had the greater opportunities but the other five have made a very good second best of it and always there has been among us a very understanding sympathy with the desire that is planted in each and all to visit the remote corners of the earth
