epistemology in the digital humanities reorienting the creation of digital tools within humanities contexts In the several

decades since humanists have taken up computational tools they have borrowed many techniques from other fields including

visualization methods to create charts graphs diagrams maps and other graphic displays of information But are these

visualizations actually adequate for the interpretative approach that distinguishes much of the work in the humanities

Information visualization as practiced today lacks the interpretivist frameworks required for humanities oriented

methodologies In this book Johanna Drucker continues her interrogation of visual epistemology in the digital humanities
