Education Richard G. Niemi,Jane Junn,2005-05-11 Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect In this important book Richard G Niemi and Jane Junn take a fresh look at what America s high school seniors know about government and politics and how they learn it The authors argue convincingly that secondary school civics courses do indeed enhance students civic knowledge This book is based on the most extensive assessment to date of civic knowledge among American youth the 1988 National Assessment of Education Progress NAEP Civics Assessment The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching **Municipal Journal** ,1988 **No**

Reluctant Citizens Jeremiah Clabough,Timothy Lintner,2018-06-01 American democracy is at a critical crossroads Rancor division and suspicion are the unfortunate byproducts of the contentious 2016 presidential election The election also bred a measure of civic uncertainty where citizens of all ages struggle to find and define their roles within a functioning democracy No Reluctant Citizens Teaching Civics in K 12 Classrooms is designed to help social studies teachers reinforce the centrality of civic education through a series of hands on participatory and empowering activities From civic literacy to human rights from service learning to controversial issues No Reluctant Citizens Teaching Civics in K 12 Classrooms explores an array of topics that ultimately provides K 12 students the conceptual and practical tools to become civically engaged *Civic Education and the Future of American Citizenship* Elizabeth Kaufer Busch,Jonathan W. White,2013 Lack of civic knowledge ignorance about the U S Constitution and general ambivalence about education threaten the fiber of this nation The remedy to this malaise advocated in various ways by a diverse group of contributors is a well rounded liberal education that prepar

The Morality of Democratic Citizenship Robert Freeman Butts,1988 In recent years a number of political and educational leaders and groups have urged the nation s public schools to place a greater emphasis on teaching civic values and on educating students to become citizens This book puts forth the civic values and ideas that schools should be teaching The volume is not a handbook or curriculum guide but is designed to broaden the perspective of curriculum specialists textbook authors teachers and educational policymakers In the first three chapters of this four chapter book the study of and learning about history the study and learning about constitutional principles and the study and learning about conceptions of citizenship are examined The final chapter offers a set of 12 ideas and civic values that should suffuse teaching and learning

in the schools These 12 values are justice equality authority participation truth patriotism freedom diversity privacy due process property and human rights DB **Internationales Verlagsadressbuch Mit ISBN-Register** ,1986 *Project Citizen* ,2008 This process oriented program for use in the middle grades focuses on the role of state and local governments in the U S federal system **Civic Education for Diverse Citizens in Global Times** Beth C. Rubin,James M. Giarelli,2013-10-11 This book explores four interrelated themes rethinking civic education in light of the diversity of U S society re examining these notions in an increasingly interconnected global context re considering the ways that civic education is researched and practiced and taking stock of where we are currently through use of an historical understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum *Civic Education for Diverse Citizens in Global Times* directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory **Civic Education** David Snedden,1922 **Citizenship** Diana L. Reische,American Association of School Administrators,1987 The central question of this book is how can schools that are already overloaded with assignments from society find the time and techniques to produce effective citizens Six chapters examine this problem Chapter 1 documents the need for civic education and the problems related to providing an effective civic education Chapter 2 explores the many different interpretations of citizenship education and determines that it stems from all educational experiences A discussion of the different content areas and approaches associated with citizenship education is presented in chapter 3 State mandates and the place of citizenship education in the elementary junior high and high school curricula are outlined in chapter 4 Methods of providing hands on experience to students through youth participation programs are outlined in chapter 5 The concluding chapter discusses ways to use the bicentennial celebration to revitalize citizenship education A five page list of references is provided and the book concludes with 21 recommendations for strengthening civic education SM *Civic Education in the Elementary Grades* Dana Mitra,Stephanie C. Serriere,2015-10-16 Based on a 5 year study of an elementary school with socioeconomic diversity the authors provide an active model of civic engagement organized into three settings Classroom School and Community Each chapter includes an overview of what research has demonstrated about civic engagement in that particular space offers detailed descriptions of activities and closes with lessons for practice This case study demonstrates how putting civics at the center of the curriculum gives purpose and motivation to traditional academic learning including tested subjects such as reading writing and mathematics As former elementary school teachers the authors focus on what is possible in schools rather than a romantic vision of what schools could be Classroom teachers school principals community members and teacher educators can use this resource to foster a
