are written by police personnel who are currently pursuing or have completed a master's or doctoral degree abroad. Some of the writings written in collaboration with high ranking officers of the Indonesian National Police offer an eagle eye view that is slightly different from the books on policing in Indonesia that have been published before. This book is expected to spark positive discussions on several technical policing issues in Indonesia which can later serve as a valuable reference for further research on the management of public security order and law enforcement both in Indonesia and globally **U.S.**
