Standards Focus: Character Types

Chapters 17-20

As authors develop the plot and characters for a story, several character types emerge:

- ✓ The **protagonist** of a story is the main character that changes throughout the story; the protagonist is directly affected by the events of the plot.
- ✓ The **antagonist** is the main character in opposition to the protagonist; the antagonist usually causes the protagonist's problems. (The antagonist can also be a force of nature, such as flood, drought, hurricane, etc., or an intangible force, such as a Totalitarian Government.)

To further define his characters, an author then develops four general types of characters which evolve around the protagonist and antagonist and support the plot development.

- **Round** characters are complicated and interesting to the reader.
- **Flat** characters are simple and under-developed.
- **Dynamic** characters are those that grow or change emotionally or learn a lesson.
- **Static** characters change or grow very little (or not at all) throughout the story.

Directions: For the following characters, label each character as protagonist, antagonist, or neither; round or flat; dynamic or static. For example, Luke is the protagonist, who is also round and dynamic.

Character	Protagonist, Antagonist or Neither	Round or Flat	Dynamic or Static
Luke	Protagonist	Round	Dynamic
