*What are your short-term and long-term career aspirations? How will an MBA education further your development? Why does the academic experience offered at the Stanford GSB, in particular, appeal to you?*

It is not often when one decides to take a step that will have a profound effect on his or her future. Such decisions should never be taken lightly because, more often than not, they involve having to defy conventional wisdom or taking a calculated risk. Going to a business school in the midst of an economic downturn, rather than staying in a stable and financially rewarding career, is a good example of such a drastic solution.

However, looking back, I've never regretted following my heart when it came to making a bold career changing move. Ultimately, regardless of how successful I was in a particular endeavor, I always knew that what really matters is that I gave it my best shot. So here is my story of the many turns and detours that brought me to a point when an MBA has become the next logical step, although not necessarily the one that would come to mind when looking from the most pragmatic perspective.

I always was – and still am – fascinated by modern technology and how it affects our everyday life. Thus, when I first started college, I knew that I should go into Sciences and Engineering, but was faced with a difficult choice of selecting the right major. On one hand, I wanted to follow in the footsteps of my father and grandfather, both of whom are renowned Physicists. Yet the field of Information Systems was red hot at the time and it would have been just as easy to go with the flow. Upon much consideration, I found a compromise and went into Mechanical Engineering.
