Early Exploration of the Moon

Tom Lund, 2018-12-26 Luna 2 launched by the USSR in 1959 was the first spacecraft from Earth to land on the moon. That first voyage was followed by increasingly capable lunar exploration spacecraft from Russia and the United States. A total of 36 successful lunar exploration missions were conducted from 1959 to the last Apollo manned exploration in 1972 and the final travels of the Lunokhod lunar rover in 1973. Of all the missions that of Apollo 17 was the pinnacle of manned space exploration. Apollo 17 astronauts traveled 21 miles on the lunar surface in a dune buggy type vehicle stopping frequently to explore and gather samples. The spacecraft that enabled lunar exploration were ingenious and reflected the best efforts of talented people working with the technology of the day. This book showcases the engineering involved in those incredible machines. The spacecraft covered and their missions are listed below:

- From the United States: Ranger Photography en route to lunar impact; Lunar Orbiter Photography of front and back side of moon; Surveyor Soft landing photography and soil analysis; Apollo Manned exploration Lunar Rover expanded range.
- From the USSR: Luna 2 Photography en route to lunar impact; Luna 3 Photography of back side of moon on flyby; Luna 9 and 13 Soft landing photography and soil analysis; Luna 10, 11, 12, 14 Photography from lunar orbit; Luna 16, 20, 24 Soft landing return of soil sample to Earth.
- Lunokhod 1, 2 Lunar roving vehicle driven from Earth.
- L1 Planned manned lunar flyby but only flew unmanned.
- L3 Planned manned lunar landing but never flew to moon.

To tell the story of these spacecraft Tom Lund draws on over 40 years work on aircraft and spacecraft systems. He was technical lead for the landing radars for the Surveyor and Apollo spacecraft and his practical experience is augmented by master's degrees in electrical engineering, physics and business administration.

Wilderness Medicine E-Book Paul S. Auerbach, 2011-10-31 Quickly and decisively manage any medical emergency you encounter in the great outdoors with Wilderness Medicine. World renowned authority and author Dr Paul Auerbach and a team of experts offer proven practical visual guidance for effectively diagnosing and treating the full range of emergencies and health problems encountered in situations where time and resources are scarce. Every day more and more people are venturing into the wilderness and extreme environments or are victims of horrific natural disasters and many are unprepared for the dangers and aftermath that come with these episodes. Whether these victims are stranded on mountaintops, lost in the desert, injured on a remote bike path or ill far out at sea, this indispensable resource now with online access at www.expertconsult.com for greater accessibility and portability equips rescuers and health care professionals to effectively address and prevent injury and illness in the wilderness. This textbook is widely referred to as The Bible of Wilderness Medicine. Be able to practice emergency medicine outside of the traditional hospital/clinical setting whether you are in remote environments, underdeveloped but highly populated areas or disaster areas are part of search and rescue operations or dealing with casualties from episodes of extreme sports and active lifestyle activities. Face any medical challenge in the wilderness with expert guidance. Dr Auerbach is a noted author and the world's leading authority on wilderness medicine. He is a founder and

Past President of the Wilderness Medical Society consultant to the Divers Alert Network and many other agencies and organizations and a member of the National Medical Committee for the National Ski Patrol System Handle everything from frostbite to infection by marine microbes not to mention other diverse injuries bites stings poisonous plant exposures animal attacks and natural disasters Grasp the essential aspects of search and rescue Respond quickly and effectively by improvising with available materials Improve your competency and readiness with the latest guidance on volcanic eruptions extreme sports splints and slings wilderness cardiology living off the land aerospace medicine mental health in the wilderness tactical combat casualty care and much more Meet the needs and special considerations of specific patient populations such as children women elders persons with chronic medical conditions and the disabled Make smart decisions about gear navigation nutrition and survival Be prepared for everything with expanded coverage on topics such as high altitude cold water immersion and poisonous and venomous plants and animals Get the skills you need now with new information on global humanitarian relief and expedition medicine plus expanded coverage of injury prevention and environmental preservation Get guidance on the go with fully searchable online text plus bonus images tables and video clips all available on ExpertConsult.com

North-East Passage to Muscovy Kit Mayers, 2005-07-21 North East Passage to Muscovy explores important and overlooked sea voyages the motivation behind them the geographical knowledge acquired on them which put England in the forefront of cartography and the extraordinary dealings of the Muscovy Company which included passing on a proposal of marriage to Elizabeth I from Ivan the Terrible
