Media Representations of the Cultural Other in Turkey

Alparslan Nas, 2018-05-08 A fresh study that confirms the existence of multiple peripheries and its others in Turkish society and how dominant centrist media represented these differences in film and television discourse The use of Mardin's center periphery concept for the analyses of films ads and cartoons is brilliant This is a timely project as scholarly interest in Turkey has increased exponentially since 2013 This project is key to understanding the roots of a media politics in contemporary Turkey Murat Akser Ulster University UK Alparslan Nas seminal work disrupts the notion of Turkish identities as fixed and stable He challenges the center secular modern Western peripheral conservative religious binary by critically examining how a cultural other is constructed and performed through the media in Turkey Nas analysis offers a much needed new lens and approach to understanding Turkey's complex social and political landscape Kathleen Cavanaugh National University of

Ireland Galway Ireland This book is an important contribution to the scholarship on Turkey's cultural and political dynamics facilitating a discussion on the recent depictions of the cultural other in the media Turkey's modern history has been characterized by a particular tension between the social classes occupying the center of society while the bureaucratic elite are represented as modern secular and westernized the peripheral communities are portrayed as conservative religious or non Turkish This book facilitates a timely intervention to problematize this possible perception and to point at the complex dynamics of center periphery relations through the representation of the cultural other in film television advertisements and cartoons which have all been produced by different social classes Ultimately Media Representations of the Cultural Other in Turkey argues that the notions of the center and periphery do not signify stable positions rather each social agent imagines themselves at the center the cultural other at their periphery providing a crucial tool for the realization of their own identity
