A man and a woman are shown from the chest up, standing in a shower. The woman, on the left, has long blonde hair and is wearing a blue off-the-shoulder top. The man, on the right, is shirtless and has dark hair and a beard. They are both looking down and appear to be kissing or about to kiss. The background is a white shower curtain.

Grattius Steven J. Green, 2018-03-09 Grattius Cynegetica a Roman didactic poem on hunting with dogs is the author's only surviving work though it reaches us now in an incomplete form Thanks to a passing reference by Ovid in his Epistulae ex Ponto it can confidently be dated to the Augustan period and yet while his literary contemporaries have been and continue to be subjects of academic scrutiny Grattius is seldom read and remains almost completely unappreciated in classical and literary scholarship This volume is the first book length study of Grattius in English or any other language and sets out to rehabilitate the neglected poet by making him and his work accessible to a wide audience Prefaced by an introduction to the poet and his work as well as the Latin text of Cynegetica and a new English translation it presents a broad collection of interpretive essays from an international team of scholars These essays explore the poem within its literary intellectual and socio political contexts and look forward to Grattius more charitable posthumous reception in Europe in the sixteenth to eighteenth centuries As a whole they aim to reveal his enduring relevance for the tradition of didactic poetry and the study of other Augustan poetry and culture and to provide an impetus for future discussions

McDowell, 2014-07-16 Bringing critical attention to a particular set of science fiction and fantasy films Larry and Andy Wachowski's The Matrix George Lucas Star Wars saga and Joss Whedon's Avengers this book utilizes a wide ranging set of critical tools to illuminate their political ideologies while also examining any resistant and complicating turns or byways the films may provide What they all have in common ideologically is that they or at least the genres they belong to tend to be regarded as belonging to politically conservative frames of sociocultural reference With the Star Wars saga however this idea is shown to be superficial and weak

A Man of Many Parts Barbara Rawlinson, 2006-01-01 This comprehensive study of George Gissing's short stories and related non fiction is essential reading for students of nineteenth century realism For the first time readers will be able to follow the development which transformed Gissing's unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction Gissing's American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work causality emerging as the dominant voice On his return to England shifting political and philosophical beliefs expressed in his non fiction had a vital impact on his second phase of short fiction and the part played by realism in the author's short stories and his writings on Charles Dickens added further dimensions to his work as a whole By the final phase of Gissing's remarkable development it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche This introduced philosophical sociological and psychological dimensions to Gissing's

work that established him in the field of short fiction as a leading exponent of late nineteenth century realism      **The Advocate** ,1999-01-19 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States      *Latinos and Education* Antonia Darder,Rodolfo D. **Literacies of Power** Donaldo Macedo, 2018-03-09 Literacies of Power illustrates the many ways American schools media and other social institutions perpetuate ignorance In this new expanded edition Donaldo Macedo shows why so called common culture literacy is a form of dominant cultural reproduction that undermines independent thought and goes against the best interests of our students Offering a wide ranging counterargument Macedo shows why cultural literacy cannot be restricted to the acquisition of Western heritage values which sustain an ideology that systematically negates the cultural experiences of many members of society not only minorities but also anyone who is poor or disenfranchised Macedo calls on his own experience as a Cape Verdean immigrant from West Africa who had to surmount the barriers imposed by the world's most entrenched monolingual system of higher education His eloquence in this book is testimony to the very idea that critical thinking and good education are not and must not be culturally or linguistically bounded A new concluding chapter by the author critically challenges the crucial role of schools in the manufacture of consent for the war in Iraq and the Patriot Act and the charitable racism that is too often evident in the field of ESL In essays new to this edition well known and respected educators Joe Kincheloe Peter McLaren and Shirley Steinberg share their insights on Macedo's message complementing Paulo Freire's foreword to the original edition

Blackness in Britain Kehinde Andrews, Lisa Amanda Palmer, 2016-04-28 Black Studies is a hugely important and yet undervalued academic field of enquiry that is marked by its disciplinary absence and omission from academic curricula in Britain There is a long and rich history of research on Blackness and Black populations in Britain However Blackness in Britain has too often been framed through the lens of racialised deficits constructed as both marginal

and pathological Blackness in Britain attends to and grapples with the absence of Black Studies in Britain and the parallel crisis of Black marginality in British society It begins to map the field of Black Studies scholarship from a British context by collating new and established voices from scholars writing about Blackness in Britain Split into five parts it examines Black studies and the challenge of the Black British intellectual Revolution resistance and state violence Blackness and belonging exclusion and inequality in education experiences of Black women and the gendering of Blackness in Britain This interdisciplinary collection represents a landmark in building Black Studies in British academia presenting key debates about Black experiences in relation to Britain Black Europe and the wider Black diaspora With contributions from across various disciplines including sociology human geography medical sociology cultural studies education studies post colonial English literature history and criminology the book will be essential reading for scholars and students of the multi and inter disciplinary area of Black Studies

**The Idea of Social Science and Proper Phenomenology** Jonathan Tuckett,2018-06-11 This monograph examines an academic discipline in crisis The author claims that this field concerned with society and relationships is in trouble No one can seem to agree on what it does or how to go about doing it His insightful argument revives the thought of key phenomenologists often no longer considered in social science Looking predominantly at debates within religious studies this book uncovers certain misguided presuppositions which have strongly influenced scholars in the field This reflects itself in a Weberian Ideal regarding the institutional place of science in the universities and a failure to properly consider the epistemic status of knowledge produced for its own sake But even recognizing these issues will not get to the core of the crisis It will not help scholars better understand what it is to be human To address this the author digs deeper He draws on the philosophical phenomenology of Husserl s Phenomenological Movement to critique our very idea of social science In the process he presents a radical approach to the question of humanity This volume concludes that properly understood social science is a hobby It deserves no special place in the university Indeed if it is to be pursued properly it requires a fundamentally revised understanding of humanity The author argues this not of the sake of controversy Rather his intention is to affect the necessary shift in our understanding that will enable future constructive solutions
