Pelletier, Halima Husić, 2021-06-10 A classical viewpoint claims that reality consists of both things and stuff and that we need a way to discuss these aspects of reality This is achieved by using count terms to talk about things while using mass terms to talk about stuff Bringing together contributions from internationally renowned experts across interrelated disciplines this book explores the relationship between mass and count nouns in a number of syntactic environments and across a range of languages It both explains how languages differ in their methods for describing these two fundamental categories of reality and shows the many ways that modern linguistics looks to describe them It also explores how the notions of count and mass apply to abstract nouns adding a new dimension to the countability discussion With its pioneering approach to the fundamental questions surrounding mass count distinction this book will be essential reading for researchers in formal semantics and linguistic typology **Standing in the Light** Michelle Redonnet, 2002-04-26 In fall of 1998 Corpus Christi Church in Rochester N Y underwent the loss of its priest its female pastoral assistant and most of its staff over the issues of the role of women in leadership the blessing of homosexual unions and an invitation to anyone who loves the Lord to share in communion at Mass That winter about a third of the parish formed a new church Spiritus Christi In February of 1999 the Roman Catholic Diocese of Rochester announced that those who had joined the new parish had incurred automatic excommunication Spiritus Christi is today a thriving community of about 1 500 people renting space for services in three Protestant churches in downtown Rochester The community runs a Prison Ministry a Mental Health Outreach and the Grace
