

Compliance Manual

The compliance process consists of three activities that are managed by the Steering Group:

- self assessment prepared by the Institute providing evidence of whether its entry-level professional qualification meets the Common Content education and general requirements;
- review of the self assessment by a review team on behalf of the Steering Group to assess whether there is adequate evidence to support the conclusions expressed in the self assessment; and
- Steering Group decision making in relation to the self assessment and review processes.

This Compliance Manual explains the self assessment, review and Steering Group decision-making processes in relation to compliance, and the management of the compliance process through the Steering Group. This Manual sets forth the requirements for the performance of self assessments by institutes, the performance of reviews by review teams, and the decision-making process in relation to the self assessment and review processes.

The Compliance Manual refers to the following Common Content documents:

- Common Content Overview
- Learning Outcomes and Knowledge
- Skills Framework

These are available on the Common Content website www.commoncontent.com.

Compliance Process

The Compliance Manual sets forth the requirements for each of the three activities of the compliance process in turn.
