Putin's Labor Dilemma Stephen Crowley, 2021-07-15 In Putin s Labor Dilemma Stephen Crowley investigates how the
fear of labor protest has inhibited substantial economic transformation in Russia Putin boasts he has the backing of workers
in the country s industrial heartland but as economic growth slows in Russia reviving the economy will require restructuring
the country s industrial landscape At the same time doing so threatens to generate protest and instability from a key regime
constituency However continuing to prop up Russia s Soviet era workplaces writes Crowley could lead to declining wages
and economic stagnation threatening protest and instability Crowley explores the dynamics of a Russian labor market that
generally avoids mass unemployment the potentially explosive role of Russia s monotowns conflicts generated by massive
downsizing in Russia s Detroit Tol yatti and the rapid politicization of the truck drivers movement Labor protests currently
show little sign of threatening Putin s hold on power but the manner in which they are being conducted point to substantial
chronic problems that will be difficult to resolve Putin s Labor Dilemma demonstrates that the Russian economy must either
find new sources of economic growth or face stagnation Either scenario market reforms or economic stagnation raises the
possibility even probability of destabilizing social unrest *Jet*, 1981-10-08 The weekly source of African American political
and entertainment news *American Tabloid Media and the Satanic Panic, 1970-2000* Sarah A. Hughes, 2021-10-27 This
book examines the satanic panic of the 1980s as an essential part of the growing relationship between tabloid media and
American conservative politics in the 1980s It argues that widespread fears of Satanism in a range of cultural institutions
was indispensable to the development and success of both infotainment or tabloid content on television and the rise of the
New Right a conservative political movement that was heavily guided by a growing coalition of influential televangelists or
evangelical preachers on television It takes as its particular focus the hundreds of accusations that devil worshippers were
operating America s white middle class suburban daycare centers Dozens of communities around the country became
embroiled in trials against center owners the most publicized of which was the McMartin Preschool trial in Manhattan Beach
California It remains the longest and most expensive criminal trial in the nation s history Congressional Record United

Sustainable. Resilient. Free. John Warner, 2020-12-08 After the coronavirus pandemic has laid bare the unsustainability of our public higher education system an author and educator maps out a path for change In 1983 U S News and World Report started to rank colleges and universities throwing them into competition with each other for students and precious resources Over the course of the next thirty or so years a Reagan era ethos of privatization and competition transformed students into

consumers and colleges into businesses Now tuition is unaffordable Student loan debt is more than 1.6 trillion and most college faculty work in adjunct positions for low pay and with no job security Colleges seem to exist only to enroll students collect tuition and hold classes When learning happens it is in spite of the system not because of it In Sustainable Resilient Free John Warner envisions a future in which our public colleges and universities are reoriented around enhancing the intellectual social and economic potentials of students while providing broad based benefits to the community at large As Warner explains it's not even all that complicated It's no more costly than the current system We just have to choose to live the values we claim to hold dear A critical read for anyone invested in the future of public higher education

The Culture of Fear Barry Glassner, 2010-01-05 The bestselling book revealing why Americans are so fearful and why we fear the wrong things now updated for the age of Trump In the age of Trump our society is defined by fear Indeed three out of four Americans say they feel more fearful today than they did only a couple decades ago But are we living in exceptionally perilous times In his bestselling book The Culture of Fear sociologist Barry Glassner demonstrates that it is our perception of danger that has increased not the actual level of risk Glassner exposes the people and organizations that manipulate our perceptions and profit from our fears politicians who win elections by heightening concerns about crime and drug use even as rates for both are declining advocacy groups that raise money by exaggerating the prevalence of particular diseases TV shows that create a new scare every week to garner ratings Glassner spells out the prices we pay for social panics the huge sums of money that go to waste on unnecessary programs and products as well as time and energy spent worrying about our fears All the while we are distracted from the true threats from climate change to worsening inequality In this updated edition of a modern classic Glassner examines the current panics over vaccination and political correctness and reveals why Donald Trump's fearmongering is so dangerously effective

The Evangelicals Frances FitzGerald, 2017-04-04 Initially a populist rebellion against the established Protestant churches evangelicalism became the dominant religious force in the country before the Civil War but the northerners and southerners split over the issue of slavery After the Civil War the northern evangelicals split eventually causing a conflict between fundamentalists and modernists Only after the Second World War would conservative evangelicalism gain momentum thanks in large part to Billy Graham's countrywide revivals FitzGerald shows how the conflict between religious conservatives and others led to national culture wars and a Southern Republican stronghold and how a new generation of evangelicals is challenging the Christian right by preaching social justice and the common good FitzGerald suggests that because evangelicals are splintering America the most religious of developed nations will eventually look more like secular Europe
