Usages Et Enjeux Des Technologies De Communication:

Usages et enjeux des technologies de communication Francis Jauréguiberry, Serge Proulx, 2011 Cet ouvrage présente de façon synthétique en les recoupant par thèmes et approches la plupart des travaux qui depuis vingt ans ont cherché rendre compte des usages de technologies de communication c'est-à-dire des objets, outils et dispositifs techniques permettant l'interaction à distance et une réciprocité dans la communication téléphonie, internet, jeux en ligne. Mettant l'accent sur la mesure des changements que ces usages ont induits, il en expose les enjeux en termes économique, politique et social.

Digital Health Communications Benoit Cordelier, Olivier Galibert, 2021-07-07

ECHNOLOGICAL PROSPECTS AND SOCIAL APPLICATIONS SET Coordinated by Bruno Salgues

There are many controversies with respect to health crisis management: the search for information on symptoms, misinformation on emerging treatments, massive use of collaborative tools by healthcare professionals, deployment of applications for tracking infected patients. The Covid 19 crisis is a relevant example about the need for research in digital communications in order to understand current health information communication. After an overview of the challenges of digital healthcare, this book offers a critical look at the organizational and professional limits of ICT uses for patients, their caregivers and healthcare professionals. It analyzes the links between ICT and ethics of care where health communication is part of a global humanistic and emancipating care for patients and caregivers. It presents new digitized means of communicating health knowledge that reveal, thanks to the Internet, a competition between biomedical expert knowledge and experiential, secular knowledge.

From UXD to LivXD Sylvie Leleu-Merviel, Daniel Schmitt, Philippe Useille, 2019-04-09

Living eXperience Design The design of life experiences is an extension of user experience design UXD. The context comprises usage and practice in real contexts in which spatial, urban, social, temporal, historical and legal dimensions are considered. Reflecting upon LivXD is to examine the whole experience of a target audience in a variety of situations and not only in those involving digital technology. This book begins with the definition of LivXD and its associated epistemology and proceeds to detail field experiments in certain privileged areas: the relation to creation and works, mediation and adult education.

Science, Technology and Innovation Culture Marianne Chouteau, Joëlle Forest, Céline Nguyen, 2018-10-08

We are facing unprecedented challenges today. For

many of us innovation would be our last hope But how can it be done Is it enough to bet on the scientific culture How can technical culture contribute to innovation How is technical culture situated with regards to what we name collectively the culture of innovation It is these questions that this book intends to address **Hyperconnectivity** Dominique Carré, Geneviève Vidal, 2018-10-10 The use of digital information and communication technologies would be the traces of a social acceptability of the exploitation of all data in the context of negotiations of uses This is the reason why the users present themselves actors and contributors of the hyperconnectivity We would thus witness a new form of dissemination inviting user experience and social innovations It is thus the victory of subordination by negotiated renunciation A new form of serving no longer that of the 1980s with the counters and other services which have become uncontrolled services excepted when the users are overcome by restrictive ergonomics revealing too much the subordination device which joins the prescription apparently without an injunction The lure is at its height when users and broadcasters come together to produce the services and goods composing the business model until the very existence of the companies in particular the pure players Crowdsourcing becomes legitimate consumers create the content deliver the data the basis of the service sold in a painless way because free access most of the time indirect financing the providers make available and administer the service networks Interfaces representing considerable costs also reputation to attract the attention of other consumers or contributors In these conditions the environmental stakes are considerable so we propose another way of considering them not as they are dealt with material and pollution but according to the prism of the relational practices analyzed in this volume
