The Application of Foreign Investment Protection in Times of Armed Conflict Petr Stejskal, 2025-08-25 The monograph presents scenarios of situations where foreign investments suffer damage These model scenarios are based on thorough analysis of real cases facts from the ground and recent arbitral practice relating namely to arbitrations against Russia Syria or Libya This allows the author in the next step to ascertain what rules are applicable to the conduct of states towards foreign investments but also to demonstrate how they apply in real case scenarios In particular the work identifies and applies to these tailored scenarios relevant norms of international investment law international humanitarian law and international human rights law These regimes are relevant for protection of foreign investment but they differ as to the situations they govern parties whose conduct they regulate and obligations they stipulate It is therefore appropriate to analyse in their interconnection how these rules govern typical situations that may arise during armed conflict and what particularly they prescribe On the basis of application of these rules on the defined scenarios the monograph focuses on the issue of applicability of investment treaties in occupied territories and on interactions and on the issue of conflict of norms in situations where foreign investments qualify as military objectives

Conflict and the Environment N.P. Gleditsch, 2013-04-17 Nils Petter Gleditsch International Peace Research Institute Oslo PRIO Department of Sociology and Political Science Norwegian University of Science and Technology Trondheim This book could hardly have happened but for the end of the Cold War The decline of the East West conflict has opened up the arena for increased attention to other lines of conflict in Europe and at the global level Environmental disruption not a new phenomenon by any means is a chief beneficiary of the shift in priorities in the public debate The Scientific and Environmental Affairs Division of NATO has moved with the times and has defined environmental security as one of its priority areas for cooperation with Central and Eastern Europe and countries of the former Soviet Union This book is the main output of an Advanced Research Workshop ARW held in Bolkesjøl Norway 12-16 June 1996 I would like to acknowledge the personal support of L Veiga da Cunha Director of the Priority Area on

Environmental Security Research on these issues is now very much a collaborative effort across former lines of division in Europe NATO encourages indeed requires that this be reflected in the composition of the participants as well as the organizing committee This meeting was organized by a group of five people from five different countries Lothar Brock Germany Nils Petter Gleditsch Norway Thomas Homer Dixon Canada Renat Perelet Co Director Russia and Evan Vlachos USA News Framing Effects Sophie Lecheler, Claes H. de Vreese, 2018-09-03 News Framing Effects is a guide to framing effects theory one of the most prominent theories in media and communication science Rooted in both psychology and sociology framing effects theory describes the ability of news media to influence people's attitudes and behaviors by subtle changes to how they report on an issue The book gives expert commentary on this complex theoretical notion alongside practical instruction on how to apply it to research The book's structure mirrors the steps a scholar might take to design a framing study The first chapter establishes a working definition of news framing effects theory The following chapters focus on how to identify the independent variable i.e. the news frame and the dependent variable i.e. the framing effect The book then considers the potential limits or enhancements of the proposed effects i.e. the moderators and how framing effects might emerge i.e. the mediators Finally it asks how strong these effects are likely to be The final chapter considers news framing research in the light of a rapidly and fundamentally changing news and information market in which technologies platforms and changing consumption patterns are forcing assumptions at the core of framing effects theory to be re-evaluated

Media Discourse and the Yugoslav Conflicts Pål Kolstø, 2016-04-29 In spite of the growing literature on discourse analysis the relationship of discourse to violent non-violent outcomes of conflict is an under-researched area This book combines theories on ethnic conflict identity construction and discourse analysis with a comprehensive and inclusive survey of the countries of the former Yugoslavia It presents an understanding of the interrelationship between words and deeds grounded through an extensively close analysis of film television and newspapers samples taken from the period This combination of ground-breaking applications of theory with detailed empirical case studies will make Media Discourse and the Yugoslav Conflicts of key interest to scholars across a range of social sciences including sociology discourse analysis media conflict and peace studies as well as those concerned with ethno-political conflict **Northern Spotted Owl**

Management Plan in the National Forests (CA, OR, WA), 1992 Entrapment in Escalating Conflicts J. Brockner, J.Z. Rubin, 2012-12-06 It was just over 12 years ago that we first sat down together to talk about psychological traps In the relative calm of late afternoons feet draped casually over the seedy furnishings of the Tufts psychology department we entertained each other with personal anecdotes about old cars times spent lost on hold and the Shakespearean concerns of Rosencrantz and Guildenstern Lord and Lady Macbeth and other notables Eventually informed by our many illustrations and the excitement that their repeated telling engendered in the two of us we began to move more formally into trap analysis How do you know a trap when you see one What are the shared characteristics of all psychological traps regardless of origin

scope or complexity What are the key conceptual elements in any effort to differentiate among the traps of the world What factors make us more or less apt to fall prey to entrapment These were some of the questions that arose during these initial meetings A series of weekly meetings stretched over the ensuing years interrupted temporarily by various exigencies and led eventually to a research program that grew to involve a number of students and faculty colleagues At the time of course we did not regard our work as a research program rather even as our experiments proceeded to answer two burning questions at a time they managed to raise three or four new issues that we had not anticipated before

Rome Convention - Rome I Regulation Alexander J. Belohlávek, 2011-01-01 As of 17 December 2010 the Rome I Regulation EU Regulation 593/2008 on the law applicable to contractual obligations is directly applicable in all EU Member States with the exception of Denmark The Rome I Regulation replaces the Rome Convention of 1980 in the EU Member States and will apply to all contracts concluded as of 17 December 2010 However and herein lies the utility and great importance of this work the Rome Convention and the Rome I Regulation will be applied in parallel for a significant time to come the author himself anticipates a ten to fifteen year period in the latter case to contracts made after 17 December 2010 This is why this commentary takes into account both sources of law in their mutual interaction and broader context The

comprehensiveness of the Rome Convention Rome I Regulation is clearly apparent but one of the great achievements of the author is his amassing of over 1 800 judicial decisions most of which are furnished with a detailed commentary where these decisions apply national laws the latter are cited both in the original and in translation For a number of rulings the commentary include not only a case summary of the facts and an analysis of the conclusions drawn by the court but also takes them as models to hypothesize what conclusions would be reached if the Rome I Regulation were to be applied **The Oxford Handbook of Evolutionary Perspectives on Violence, Homicide, and War** Todd K. Shackelford, Viviana A. Weekes-Shackelford, 2012-08-23 This volume synthesizes the theoretical and empirical work of leading scholars in the evolutionary sciences to produce an extensive and authoritative review of this literature **Introducing LISREL** Adamantios Diamantopoulos, Judy A Siguaw, 2000-08-04 If you encounter a research student for whom the very word LISREL induces feelings of fear quietly recommend that they read this book They will thank you for it With increasingly user friendly versions of LISREL being released and guide books such as this published LISREL really should be accessible to all European Journal of Marketing Emphasizing substantive issues rather than intricate statistical details this book provides a comprehensive introduction to LISREL for structural equation modeling SEM using a non technical user oriented approach that The emphasis is on exposing the reader to the major steps associated with the formulation and testing of a model under the LISREL framework describing the key decisions associated with each step highlighting potential problems and limitations associated with LISREL modeling assisting the interpretation of LISREL input and output files The overall aim is to provide a critical understanding of what is really involved in LISREL modeling and sensitize the reader against mechanically fitting or modifying models The entire range of decisions associated with the practical application of the LISREL program is covered in a user friendly fashion Concrete examples are used throughout to illustrate issues relating to model conceptualization specification identification estimation evaluation modification and cross validation and illustrated with actual program output The program is made much more accessible by adopting the more user friendly SIMPLIS command language for preparing input files Although primarily aimed at beginning users readers are directed to further reading together with a comprehensive bibliography for the more advanced user **Environmental Protection and Transitions from Conflict to Peace** Carsten Stahn, Jennifer S. Easterday, Jens Iverson, 2017 This book examines the protection of the environment in post conflict societies with regard both to the maintenance of natural ecosystems and to the function of environmental protection in the peace building process addressing the strengths and weaknesses of different bodies of law **Managing Uncertainties in Networks** Joop Koppenjan, Erik-Hans Klijn, 2004-08-02 As public and private sector organizations work more frequently in partnership managing uncertainties problems and controversies becomes increasingly difficult Despite sophisticated technology and knowledge the strategic networks and games required to solve uncertainties becomes more complex and more important than ever before This unique text examines such developments in the area of network strategy

Differentiating itself from other policy network approaches which mainly have a research focus this text has a managerial orientation presenting strategies and management recommendations for public and private sector organizations as well as the analytical tools required by practitioners seeking to support their own internal decision making and strategy formulation Tapping into the important and ever growing area of risk and uncertainty management this is a vital and long awaited staple for the arena written by two leading authors in the field and is key reading for students scholars and policy makers seeking to understand the complexities of the network society

The Steps to War Paul D. Senese, John A. Vasquez, 2008-08-10 The question of what causes war has concerned statesmen since the time of Thucydides The Steps to War utilizes new data on militarized interstate disputes from 1816 to 2001 to identify the factors that increase the probability that a crisis will escalate to war In this book Paul Senese and John Vasquez test one of the major behavioral explanations of war the steps to war by identifying the various factors that put two states at risk for war Focusing on the era of classic international politics from 1816 to 1945 the Cold War and the post Cold War period they look at the roles of territorial disputes alliances rivalry and arms races and show how the likelihood of war increases significantly as these risk factors are combined Senese and Vasquez argue that war is more likely in the presence of these factors because they increase threat perception and put both sides into a security dilemma The Steps to War calls into question certain prevailing realist beliefs like peace through strength demonstrating how threatening to use force and engaging in power politics is more likely to lead to war than to peace

Sharing Power, Securing Peace? Lars-Erik Cederman, Simon Hug, Julian Wucherpfennig, 2022-07-07 Does power sharing bring peace Policymakers around the world seem to think so Yet while there are many successful examples of power sharing in multi ethnic states such as Switzerland South Africa and Indonesia other instances show that such arrangements offer no guarantee against violent conflict including Rwanda Yugoslavia Zimbabwe and South Sudan Given this mixed record it is not surprising that scholars disagree as to whether power sharing actually reduces conflict Based on systematic data and innovative methods this book comes to a mostly positive conclusion by focusing on practices rather than

merely formal institutions studying power sharing's preventive effect analyzing how power sharing is invoked in anticipation of conflict and by showing that territorial power sharing can be effective if combined with inclusion at the center The authors' findings demonstrate that power sharing is usually the best option to reduce and prevent civil conflict in divided states

Demographic Differences in Organizations Anne S. Tsui, Barbara A. Gutek, 1999-01-01 Meticulously researched and authored by two respected scholars this book addresses the problems and benefits associated with an increasingly diverse global workforce

Targeted Killings, Law and Counter-Terrorism Effectiveness Ophir Falk, 2020-06-01 This book examines the permissibility and effectiveness of targeted killing in campaigns against terror Targeted killing has become a primary counterterrorism measure used by several countries in their confrontation with lethal threats The practice has been extensively used by the US in Afghanistan Iraq Pakistan Yemen and Somalia and by Israel in the West Bank and Gaza Several studies have already explored the difficult balance between achieving security while maintaining the liberties and rights of a country's civilians This book goes a step further by seeking to examine whether maintaining those liberties by complying with legal standards and minimizing unintended deaths can be more effective for national security Using targeted killing applied by Israel in particular as well as the United States during the first decade of the twenty-first century as case studies this book explores that question and ultimately assesses whether compliance with legal standards can strengthen a state in its campaign against terrorism and thus provide stronger security The book focuses on civilian-related criteria hypothesizing that minimizing civilian casualties will maximize effectiveness in an asymmetric war setting The conclusions are not limited to a specific tactic or theater and if adopted might have far-reaching implications for how asymmetric warfare is strategized This book will be of much interest to students of counterterrorism law Middle Eastern studies and security studies
