The Masks of King Lear Marvin Rosenberg, 1992 LEAR Does Lear walk thus Speak thus Who is it that can tell me who I am Centuries of critics and actors have tried to tell but Lear's identity and the meaning of his action in the play are still touched with enigma This book seeks Shakespeare's intentions in King Lear in new ways It explores major interpretations of distinguished actors and directors as well as of critics from England the United States France Belgium Japan Sweden Norway Germany Italy the Soviet Union Czechoslovakia Romania Hungary Bulgaria and Poland Is the play unsuited for the stage as Charles Lamb and others have declared How in fact has it been staged and how visualized by critics Is Lear designed to be a frail and aging old man A powerful image of authority Mad or senile to begin with A kindly old father Everyman All of these None Does the play end with redemption Unmitigated despair Is it Christian Pagan Mr Rosenberg confronts these and other questions from the base of his study and personal experience of the play To deepen the theatrical side of that experience he began as he did in his The Masks of Othello with an involvement in the staged play he directed and acted in Othello and he followed a production of King Lear through two months of rehearsal and performance One by product of this intense participation was a discovery of some special qualities in the language of the play To achieve a better understanding of these qualities Mr Rosenberg put Lear's vocabulary through a computer and established a concordance of every word both for the play as a whole and for each character Interesting structural elements in Shakespeare's language become apparent Recognizing the difficulty for a critic of responding afresh to Shakespeare's craftsmanship in characterization and in arousing expectation Mr Rosenberg also arranged to expose the play to spectators who had never seen or read it The response of this naive audience after attending performances was curious and illuminating The author believes that any critical approach must be used that will increase our understanding of Shakespeare's work

Leadership Succession and Transition for Museums and Arts Organizations Kaywin Feldman, 2024-10-14 This book will help facilitate successful leadership transition in museums and arts organizations It is commonly noted that the greatest number of airline accidents happen during takeoff and landing The same is true for arts organizations we are at our most vulnerable during times of transition and it is critical that staff and volunteer leadership succeed in this difficult phase Surprisingly staff and boards must invent the practice each time as there is currently no how to guide for leadership transition in the arts The day that a CEO announces their resignation whether of their own decision or not is a milestone moment in an organization's history It is a

time of high vulnerability for the institution due to the challenges of appointing an effective interim director and high staff board and community anxiety about the future Search committees are formed and more often than not include patrons and community representatives who are key stakeholders but may lack experience in effective hiring Once the new executive is appointed it is critical for the board members and the new director to begin with an intentional and strategic onboarding plan The book features three main sections covering the period from departure announcement to the final farewell the search and interview process and onboarding and succession planning It was written for the boards of arts organizations search committees and for staff leadership *Wallace's Year-book of Trotting and Pacing in*, 1908

Lynching and Mob Violence in Ohio, 1772-1938 David Meyers, Elise Meyers Walker, 2018-12-11 In the late 19th century Ohio was reeling from a wave of lynchings and other acts of racially motivated mob violence Many of these acts were attributed to well known and respected men and women yet few of them were ever prosecuted some were even lauded for taking the law into their own hands In 1892 Ohio born Benjamin Harrison was the first U S President to call for anti lynching legislation Four years later his home state responded with the Smith Act for the Suppression of Mob Violence One of the most severe anti lynching laws in the country it was a major step forward though it did little to address the underlying causes of racial intolerance and distrust of law enforcement Chronicling hundreds of acts of mob violence in Ohio this book explores the acts themselves their motivations and the law's response to them
