Star Service Dvd 14:

Netflixed Gina Keating, 2012-10-11 Netflix has come a long way since 1997 when two Silicon Valley entrepreneurs Marc Randolph and Reed Hastings decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch day traffic in April 1998 crashed their server and resulted in 150 sales. Today Netflix has more than 25 million subscribers and annual revenues above 3 billion. Yet long term success or even survival is still far from guaranteed. Journalist Gina Keating recounts the absorbing fast paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success Netflix is still a polarizing company. Hastings is often heralded as a visionary; he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

Hunting the President Mel Ayton, 2014-04-14 In American history four U.S. Presidents have been murdered at the hands of an assassin. In each case the assassinations changed the course of American history. But most historians have overlooked or downplayed the many threats modern presidents have faced and survived. Author Mel Ayton sets the record straight in his new book *Hunting the President: Threats, Plots and Assassination Attempts From FDR to Obama*, telling the sensational story of largely forgotten or never before revealed malicious attempts to slay America's leaders. Supported by court records, newspaper archives, government reports, FBI files and transcripts of interviews from presidential libraries, *Hunting the President* reveals how an armed would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him. How the Secret Service foiled a plot by a Cuban immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president's motorcade route. How a deranged man broke into Reagan's California home and attempted to strangle the former president before he was subdued by Secret Service agents. In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt. The relationships presidents held with their protectors and the effect it had on the Secret Service's mission. *Hunting the President* opens the vault of stories about how many of our recent Presidents have come within a hair's breadth of assassination, leaving America's fate in the balance. Most of these stories have remained buried until now.
