Dear Parent/Quarantian,

Each year, California's Standardized Testing and Reporting (STAR) Program measures your child's progress in meeting California's world class content standards. These standards describe what all students should know and be able to do at each grade level.

This report shows your child's scores on the STAR Program tests. I encourage you to discuss these results with your child and your child's teachers. Besides giving you valuable information about your child's academic strengths and weaknesses, test scores help us understand how well our schools are doing and how we might do better in the most important job of all -- preparing students to succeed in school and beyond.

Sincerely,

[Signature]
 JIM MCCONNELL

STATE SUPERINTENDENT OF PUBLIC INSTRUCTION

Your child's overall results on the California Standards Tests

Your child's scale scores and performance levels

For complete STAR results at <http://star.cde.ca.gov> and your school's Accountability Report Card (ARC) at www.cde.ca.gov/arc/ or for a copy of the ARC, at your child's school.

How should I use these STAR Program results?

These results are one of several tests used to follow your child's educational progress. While they provide an important measure, they should be viewed with other available information about your child's achievement, such as classroom tests, assignments, and grades.

These results are also intended to help ensure your child is getting the best possible education. If your child is not performing at the level you would like, these results can help guide a conversation with your child's teacher in order to help focus on specific areas for improvement.
