Garratt,2017-09-19 Following the international success of *The Fish Rots from the Head* Developing Effective Directors this sequel from Bob Garratt explains the public s distrust of the people who govern us the directors owners regulators and politicians and how this can be changed Currently Corporate Governance is too narrow and fragmented The growing gap between the angry public and the urban elite made manifest by Brexit and Trump is due to a lack of appreciation by both parties of the roles and values of well governed organisations in bonding a society at both national and international levels This book pulls no punches and directly challenges directors and politicians to reframe their thinking about governance to address the public s distrust of them This is the ROT that needs to be STOPPED This book is truly radical in going back to basics and then designing a new national action learning system between the four main players overseen by continuous public scrutiny It is designed to counter the official reports of organisational failure that end too frequently with the weasel words but the main problem was a failure of corporate governance Currently this is code for so no one can do much about it This book shows what can be done The book explains how the disjointed responses to the angry public have resulted in a series of unhelpful regulations made worse by their thoughtless application This reaction has reduced the chances of directors being able to deliver their main purpose ensuring the future of their business by better understanding the complexities of their future financial social and environmental policies and enabling improved creativity and thoughtful risk taking Stop the Rot sets governance in a much wider social context The acceptance of global Human Values in all of our organizations with their necessary ethics and behaviours ensures the development of Inclusive Capitalism to the advantage of all **International Marketing: An Asia-Pacific Perspective** Richard Fletcher,Heather Crawford,2013-08-28

Adapt or Fail! Frederick (Rick) Funston, Jon Lukomnik, 2025-03-31. Conventional approaches to board governance have been unable to keep pace with the momentum of change as well as the uncertainty and asymmetric competition that characterizes the 21st century. *Adapt or Fail: A 5x5 Governance Framework for Boards of Directors* provides practical ways boards can lead and accelerate adaptation even in the face of extreme uncertainty and inevitable adversity. It pulls back the curtain on governance successes and failures. It highlights the critical questions every board should ask and the lessons worth learning if organizations are to successfully adapt. The book describes the five essential powers common to all boards and explores how to use them. Whether for profit or not, large or small, public or private, all boards must conduct the business of the board itself: set direction and policy, approve key decisions, and then prudently delegate, oversee the execution of direction within policy, and verify before trusting. Written by two governance experts who have lived and breathed these issues, the book shows how boards can embed a systematic and disciplined process of continuous adaptation by detecting signals, external/internal, interpreting those signals, responding through experimentation and innovation, judging the effectiveness of the response, and then adapting as necessary. This is an indispensable resource for board members and trustees in both for-profit and non-profit organizations.
