This must-have resource for both gifted and regular education teachers includes specific thinking models for teaching English language arts, social studies, and STEM. It is ideal for teachers who are looking for ways to differentiate and design lessons for their highest achieving students. Provides multiple examples of how to embed complexity within standards-based lessons. Highlights units and models from Vanderbilt University's Programs for Talented Youth curriculum. Guide for Teachers using Land of Hope Young Readers Edition Middle School grades 6-8. The FIRST Teachers Guide to accompany the two-volume narrative Land of Hope Young Readers Edition. Each chapter of this Teacher's Guide receives a five-part treatment: a short summation of the chapter's contents, questions and answers about the chapter, a list of key names and terms appearing within each one, a crossword puzzle based on those names and terms, and one or more primary source documents for class analysis with accompanying questions and answers. Longer documents are broken into shorter passages with questions interspersed to help younger readers. This Teacher's Guide also features a collection of map exercises as well as special units to assist instructors in teaching students about the Declaration of Independence, the Constitution, the Bill of Rights, and the two-party system.
