The enhanced e-book edition of *New Functional Training for Sports Second Edition* produces the best results on the court, field, track, and mat, not just in the weight room. Michael Boyle, one of the world's leading sport performance coaches, presents the concepts, methods, exercises, and programs that maximize athletes' movements in competition. Sample programs assist in the customization process and ensure each aspect of preparation for physical performance. Boyle also draws on the latest research and his wealth of experience to offer programming advice and recommendations on foam rolling, stretching, and dynamic warm-ups. The enhanced e-book format for *New Functional Training for Sports Second Edition* goes beyond traditional exercise descriptions and explanations, incorporating full-color, high-definition composites of foundational movements and links to video demonstrations, commentary, and analysis of key exercises. The 71 video clips show how to perform exercises for lower body, core, upper body, plyometrics, Olympic lifting, and foam rolling, stretching, and dynamic warm-ups.

A Physical Education Casey Johnston, 2025-05-06 From the most visible woman writing about weightlifting today, a profoundly engrossing memoir and manifesto about how lifting helped dissolve her allegiance to diet culture, taught her to be at home in her body, and led her to grow every kind of strength. Elizabeth Greenwood In *A Physical Education*, Casey Johnston recounts how she ventured into the brave new world of weightlifting, leaving behind years of restrictive eating and endless cardio. Woven through the trajectory of how she rebuilt her strength and confidence is a staggering exposé of the damaging doctrine spread by diet and fitness culture. Johnston's story dives deep into her own past relationships with calorie restriction, exercise, and codependency. As she progresses on her weightlifting journey, she begins to eat to fuel her growing strength, and her food cravings vanish. Her physical progress fuels a growing understanding of how mainstream messaging she received about women's bodies was about preserving the status quo. Previously convinced that physical improvement was a matter of suffering, she now knows it requires self-regard and patience. A little pushing at a time adds up to the reawakening of parts of herself she didn't even know were there. *A Physical Education* asks why so many of us spend our lives trying to get healthy by

actively making our bodies weaker Casey Johnston is a voice for those of us who feel underdeveloped and unfulfilled in our bodies and are looking to come home to ourselves
