State Bank Of Pakistan Annual Report 2008:

Risk and the Rupee in Pakistan's New Economy Antonia Settle, 2020-10-29 In a world of open markets and global trade development thinking seeks stability and prosperity for the world's poor by expanding access to financial products This book challenges the development sector's embrace of financial inclusion by exploring how the new risks and instabilities that accompany the pivot towards the global economy undermining the functioning of money itself Cast against fundamental change in the monetary environment accompanying the globalisation of markets the book examines the rapid liberalisation of money and markets in Pakistan It argues that liberalisation has generated substantive problems not only for the central bank as guardian of national currency but for ordinary households By pinpointing how globalisation generates new risks for households in the everyday economy the book reveals jarring contradictions between free markets and financial inclusion whilst challenging money theory by positing substantive and empirically grounded monetary contestation that demonstrates a burden of risk imposed on ordinary people that is only exacerbated by financial inclusion

Getting Finance in South Asia 2010 Kiatchai Sophasitienphong, Anoma Kulathunga, 2010 Utilizing standardized indicators from 2001 to 2008 Getting Finance in South Asia 2010 analyzes the financial performance and soundness of commercial banks in eight South Asian countries Afghanistan Bangladesh Bhutan India Maldives Nepal Pakistan and Sri Lanka While the indicators cannot predict the onset of a financial crisis their analysis has identified specific weaknesses in regional financial sectors that should be addressed by the supervisory authorities In this current edition of the annual Getting Finance publication two new development dimensions payment systems developments and savings mobilization have been added to the six dimensions covered in the previous edition access to finance performance and efficiency financial stability market concentration and competitiveness capital market development and corporate governance This edition also expands the country coverage to include Afghanistan Bhutan and Maldives New benchmark countries have also been added including emerging countries from outside OECD In addition to analyzing the Getting Finance indicators the book also discusses the challenges facing South Asian banks and the impact of the global financial crisis on their operations The new material in this edition enables readers to have a more holistic perspective of the indicators in South Asia and a better understanding of the financial systems in the region Getting Finance Indicators 2010 reaffirms the World Bank's commitment to working with developing member countries to promote financial sector development and create financial systems that are sound stable supportive of growth and responsive to people's needs

Performance Measurement Systems in Banks Rahat Munir,Kevin

Baird,2018-12-07 Given the significant changes in the banking environment and the resultant pressures on banks to change their systems and procedures this book is a timely reference that provides a comprehensive analytical overview of changes in the performance measurement system PMS of banks in the post financial crisis era It explores the factors that influence such changes and examines banks consequential responses to institutional pressures It is an invaluable resource for researchers and practitioners to gain insights into the concept of PMS change in both developed and developing economies

Are Islamic Banks More Resilient during Financial Panics? Moazzam Farooq,Sajjad Zaheer,2015-02-26 Rapid growth of Islamic banking in developing countries is accompanied with claims about its relative resilience to financial crises as compared to conventional banking However little empirical evidence is available to support such claims Using data from Pakistan where Islamic and conventional banks co exist we compare these banks during a financial panic Our results show that Islamic bank branches are less prone to deposit withdrawals during financial panics both unconditionally and after controlling for bank characteristics The Islamic branches of banks that have both Islamic and conventional operations tend to attract rather than lose deposits during panics which suggests a role for religious branding We also find that Islamic bank branches grant more loans during financial panics and that their lending decisions are less sensitive to changes in deposits

Our findings suggest that greater financial inclusion of faith based groups may enhance the stability of the banking system
